

Quality, Environment, Health, and Safety (QEHS) Policy & Objectives

Quality Policy

S&S Power Group Quality Policy is built on following five dimensions....

1. Customer Satisfaction

We engage in identifying & understanding customer requirements and ensure its accomplishment, right the first time, on-time, everytime!

2. Compliance

We establish SOPs, Work Instructions & Guidelines for accomplishing high quality, safety, and reliability. We ensure rigorous compliance to them!

3. Continuous Improvement

We never rest content with past achievements. We push ourselves ever higher. Until our only real competition is ourselves. We eliminate waste in entire value stream and simplify processes for speed and accuracy!

4. Commitment

We drive a culture to accept zero complaints, zero defects, zero effect, zero c/o time throughout our company and practice S&S Manufacturing System.

5. Cost of Quality

We measure & continuously reduce cost of quality failures in industrial processes, transactional processes, and administrative processes.

Note:

Quality Objectives are identified, documented, and reviewed for Progress Cluster wise, every year along with the Budgeting process.

Quality, Environment, Health, and Safety (QEHS) Policy & Objectives

EHS Policy

1. S&S Power is committed to achieving environmental compliance obligation and the protection of environment including prevention of pollution and other specific commitments relevant to context of organization for the continual improvement of the Environmental management system and this is a responsibility of management and employees in all functions.
2. S&S will strive to provide a safe and healthy working environment and to avoid adverse impact and injury to the environment and the communities in which we do business.
3. S&S Power programs combine clear EHS leadership by management, the participation of all employees and functions, and the use of appropriate technology in designing, executing, and distributing S&S products and services.
4. S&S Power is committed to provide safe and healthy working conditions for the prevention of work related injury and ill health and is appropriate to the purpose, size, and context of the organization and to the specific nature of its OH&S risks and OH&S opportunities.
5. S&S Power is committed to fulfil legal requirements, other requirements, eliminate hazards and reduce OH&S risks and committed to continual improvements of the OH&S management system with consultation and participation of workers, and where they exist, worker's representatives.

Note:

EHS Objectives are identified, documented, and reviewed for Progress Clusterwise, every year along with the Budgeting process.

Quality, Environment, Health, and Safety (QEHS) Policy & Objectives

On the technical side of things, we are committed to:

1. Develop and maintain a leading level of technology in Switchgear, P&C Solutions and Automation.
2. Introduce continual improvements in processes throughout the company to meet high level of QEHS performance in each cluster.
3. Come up with innovative, reliable products, services, and solutions compliant with our QEHS policy.
4. Work together with the customer & interested parties to seek value-adding solutions to enhance EHS Performance.
5. Change our competencies, turning from product suppliers into partners who can offer innovative, comprehensive technological solutions in our field of operations.

Each of S&S Power Cluster shall comply to Integrated Management System for QEHS and QEHS action plans applicable for their operations consistent with the foregoing principles.

All employees shall be made aware of the foregoing policy & objectives and shall be required to incorporate and abide by the spirit of this policy & objectives in carrying out their responsibilities.

S&S Power Group is committed to providing the necessary support to ensure that the foregoing Policy & Objectives are effectively achieved.
