R3 Services:
Retrofit, Refurbishment, Rejuvenation
Automation service
Engineering Services
Training & Assessment service
Warranty & non warranty service
Modernization of HV substation

Dear Sir,

22.10.2021

Subject : Disconnecter cost increase due to commodity inflation

We wanted to bring to your attention that disconnecter product cost has gone up by 14% due to commodity inflation, freight increase & increase of standard low voltage components price, over the last one and half years.

Steep rise of the input cost has been calculated using IEEMA PVC calculation formula for isolators & enclosed for your reference. We seek your help in reducing the pain, we are undergoing due to heavy commodity inflation.

You may find that our recent quotes are reflection of this cost increase, which is not in our control.

Thanking you
Regards

Ashok Vishwakarma
Managing Director & CEO
