FROM THE CHAIRMAN'S DESK

Dear Shareholders,

It is with great pleasure that I welcome you to the AGM of your company. It is after many years that I can present our company's report with satisfaction and pride.

The efforts and perseverance of the teams in the UK and India have delivered results in improving all operational parameters. Our sales have improved both in quantity and a better mix of customers. Our margins are better and more predictable, our costs are in control and for a company like ours working capital is being managed much better. Working Capital is like oxygen, and when it is tight all decision making and management becomes incredibly difficult. Most importantly, governance and compliances have substantially improved too.

We took a strategic decision to sell our Pondicherry facility and move all Disconnector operations to Chennai. This has resulted in better management oversight, lower costs and more predictability. We also got a one-time capital gain which has been used to reduce some of our debt.

Our focus in the coming year will be to consolidate these improvements and deliver continuously better results and try and go into a virtuous cycle. We will invest in softer assets like digitisation, improving the depth and capabilities of our team and improve our presence in the market-both in terms of depth and breath. In the near future, we will be also looking to strengthen and clean up our capital structure.

We thank you for your patience and support and will endeavour to meet your expectations.

**Thank you and God bless,
Ashish Sushil Jalan
Chairman**

MESSAGE FROM MANAGING DIRECTOR

Greetings!

Unlike Previous Year, this year has seen several Positive Development. After closure of Pondicherry operations, site was successfully sold and proceeds were deployed for improving business and the return of loans. Pondicherry operations consolidation in Chennai has improved savings in Outbound Logistics & Inbound freight, Insource of fabrication & better utilization of feeder shops. This has resulted in improvement of contribution margin by 3% - 4%. Fixed Cost was reduced >20%. Operations in Chennai were successfully stabilized and capacity was raised to the required level for 2-3 years

India Operations – Salient Points & Focus for 23-24

- Energy Transition initiatives towards green energy, interstate and inter country grid integration, e-mobility, railway infrastructure electrification and old grid automation and re-electrification are driving demand for our main products and services in emerging and developing markets.
- With strong pipeline from Africa, Nepal, Vietnam, Bangladesh and Indian customers we are positioned to witness significant improvement in Order Book and Sales in 23-24.
- Plant Restructuring has brought the breakeven sales level low. Consolidation has improved management oversight; this will Improve Financial Sustenance of the company and improve Profitability.
- Insourcing of Fabrication & better utilization of Feeder shops increased Contribution Margin.
- We experienced significant Order booking in Disconnectors. This was driven by following initiatives.
- Strong Pipeline from Africa, Nepal, Vietnam, and Indian Customer.
- Continued Africa's Market Expansion through Key Accounts KPIL,KEC & L&T.
- R3 Service Business Expansion

FOCUS 23-24

- Focus on Attractive Segment/ Geography – Export in emerging economy & R3 service export
- Companywide focus on working capital efficiency improvement.
 - Improve Channel Business for R3+DS
 - 3-Tiered Product Approach for DS (Standard, Premium & Global)
- Launch operational excellence initiative to standardize new setup for manufacturing.
 - APIL Manufacturing Operations were transferred to SSPSE
- Continue to Improve SAP analytics and use of reports for corrective action & continuous improvement.

- In order to attract better talent and bring better work life balance, Sales team & Acrastyle Engineers office is planned to be moved to a city office in Guindy.
- Improving Capacity Structure for Operating Company & Focus for 23-24.
- Improving Organization for accelerating growth in Marketing & Technology area.

UK Operations – Salient Points

- Post COVID international supply chains for electronic products have been witnessing disturbance.
- Sheet metal commodity prices are stabilizing.
- Our continued focus on creative sourcing, advance purchase planning and close working with key suppliers is helping in managing Global Electronic part supply Chain Disturbance.
- In order to grow our business further we are driving New Business Development for Portable Relay Room.
- Our renewed focus on portable relays & digital control system will generate additional revenue in coming years.
- India and UK Team has been working together in a collaborative manner. We are improving digital connectivity between India and UK Facilities further as a result of our Digitalization program.
- UK Business Order Pipeline is Strong and margins are better.

FOCUS 23-24

- Discovering New Market Segment & Small Contractors in Renewable Space.
- Drive Portable Relay Room Business Development.
- Improve Digital Connectivity between back end Engineers team and UK Facility.
- Expanding Marketing & Application Engineers Capability in UK.

Best wishes,
Ashok Kumar Vishwakarma

INDUSTRY OUTLOOK:

Emerging & Developing Economies

The last couple of years have been very difficult for the world as a whole. The repeated waves of infections of Covid-19, and the resultant supply chain disruptions, rising energy & commodity prices, challenges in logistics and even rising inflation levels, have created challenging scenarios for governments across the world. CY2021 has been a mixed bag though. The first half of CY2022 witnessed recovery of the economy to pre-pandemic (pre-covid 19) levels. As per the World Economic Outlook (WEO) Report published by the International Monetary Fund (IMF) in April 2023, the rebound, continued at a slower pace than anticipated. The global economy is estimated to be at 3% in 2023 & 2024, as against a growth of 3.5% registered in CY 2022. The current WEO estimates are lower than the estimates shared in 2022, owing to the continuing of economic and geopolitical crisis as a result of the Russia-Ukraine war. The war-induced commodity price increases and energy price pressures have led to a surge in the inflation projections for both the ADEs and EMDEs. However, Global headline inflation is expected to fall from 8.7% in 2022 to 6.8% in 2023 and 5.2 % in 2024.

OUTLOOK

The outlook for the global economy remains cautious, with elevated inflation expected to persist, ongoing supply chain disruptions and high energy prices likely to continue. The WEO Report further states that the inflation is likely to pick up during the year, on the back of supply-demand imbalances. Much is also dependent on the broader geopolitical tensions, the ongoing climate emergencies and any disruptions arising from the pandemic. Overall, the higher broad-based inflation, are likely to have a profound impact on the projections for the developed nations as well as the EMDEs, going forward. In line with these, the global economy is expected to grow by 3.0% and 3.0%, respectively, in CY 2023 and CY 2024, respectively. However, EMDE, are likely to grow at a higher rate than global average.

INDIAN ECONOMY

As per the Economic Survey published in April 2023, the Indian GDP is estimated to have expanded by 6.8% in real terms in 2022. The latest figures released as per the WEO Report by the IMF, in April 2023, however, pegs the GDP growth for the year 2023 at 5.9% and 2024 at 6.3%. Despite these differing statistics, the Indian Economy is expected to remain buoyant, being tagged as the fastest growing major economy in the world. The growth of the economy seems to have been led by the agriculture and the allied sector, estimated to have grown by 3.9% in the fiscal, having had the least impact owing to the pandemic. The growth was led by the strong government impetus and stimulus packages in addition to a reasonable monsoon. The industrial sector witnessed a sharp rebound during the fiscal, witnessing an estimated expansion of about 11.8%. The sub-sectors of manufacturing, construction and mining too witnessed a similar surge, even when the national lockdowns were imposed. However, the service sector was the hardest hit by the pandemic, having grown by an estimated 8.2% during the corresponding fiscal. The country has witnessed a consumption boom during 2021-22 led by the government consumption. Private consumption has also witnessed a strong recovery, owing to the aggressive inoculation drives by the Government and earlier-than-expected normalization of the economic activities. The same has lent an added impetus through higher capex spends and investment outlays to provide a strong push to infrastructure building. This is also expected to aid growth from the medium to long term perspective. A recent surge in prices of energy, non-food commodities, input processes, freight costs and disruption of global supply chains, owing to the Ukraine-Russia war have created challenging times for policy-making as a whole. Hence, the Central Government has taken a cautiously optimistic approach to build enough cushion to bear the impact from these issues, through additional stimulus and policy support.

OUTLOOK:

India's GDP growth in 2022-23 is being supported by the widespread vaccine coverage, gains from the supply-side reforms, easing of regulations, robust export growth and availability of fiscal space to ramp up capital spending. The growth projection as provided in the Economic Survey 2023, expects that the growth shall not

have major implications on account of pandemic related stress. India's nominal GDP is forecast to rise to USD 8.4 Trillion by 2030 from USD 2.7 Trillion in 2021, making it the third largest economy in the world. These projections are likely to continue to project India as the fastest growing major economy in the world till 2026. Energy transition interstate grid TBCB projects and drive to have better power coverage will continue to drive electrical equipment growth higher than GDP growth.

POWER PLANT:

Retrofit of Thermal Power Plants, Flue Gas Desulphurisation (FGD) and generation of renewable power plant & Storage System is a transition. Due to plant move in energy products mix move from fossil fuel to renewable and focus has shifted to O&M & Retrofit & existing Plant till their exist. Hydroelectric Power Plant handled from India in various countries gives us opportunities for 10% - 15% hydro OEM.

POWER TRANSMISSION AND DISTRIBUTION INDUSTRY:

The demand for power has increased worldwide including India. Rising power demand as well as commitment towards utilizing Renewable sources of energy have led to widespread electrification initiatives across countries. This auger well for transmission capacity additions. The increase in renewable energy installations will expand the need for new transmission lines to deliver power to demand centres while infrastructure development projects will boost demand for increased grid connectivity in developing countries. However, the lack of strong policy mandates, political instability, and the lack of investment from utilities due to cash constraints are expected to challenge the growth. The market is expected to overcome these challenges as most governments are accelerating investments in the transmission network development. The worldwide power and distribution market is expected to increase in medium-term horizon, owing to advances in the US, China, and India. The combined market value of these nations is expected to account for 42.4% and 44.8% of worldwide electricity transmission and distribution markets, respectively, in 2024.

REGIONAL FOCUS:

Africa

Africa's power sector investment plans are directed towards both, being a direct source of economic development and an enabler of future growth. The continent is still suffering from lack of electricity generation and it is the most fundamental goal of the power sector in sub-Saharan Africa. Approximately, with 600 Million Africans without access to electricity, the present momentum behind policy and investment plans is unlikely to fulfil the whole energy needs of Africa's population. Despite the electrification rate having improved over the past decade, the penetration remains at 29% for rural areas and 84% for urban areas. The continent is aiming to enable better access to electricity by adding 60 Million new connections and 30 GW of cleaner, and more efficient generation capacity by 2030. Besides, the World Bank's 'Lighting Africa' initiatives seek to provide access to 250 Million people through off-grid connections by 2030. Till 2024 the results in an additional 50 TWH of electricity from renewables, reaching a 26% share of total generation, up from 23% in 2021 and achieving a similar level to coal-fired generation (declining from 28% in 2021 to 26% in 2024). The renewables sources are set to supply the net demand of growth between 2022-24 at 60%

MENA:

With an annual capital expenditure of almost USD 30 Billion, the power sector in the MENA region is a major source of investment prospects. The rise in population, as well as rising energy consumption from the predicted expansion of the oil and petrochemical sectors, are expected to drive MENA's power demand and consequently generating capacity to new heights. The installed power generation in 2019 was 406 GW, and it will need to rise by 40% by 2030 to fulfil the anticipated demand. By 2030, the region is expected to continue to shift away from oil-based electricity generation and toward natural gas-based energy generation. Taking advantage of their abundant natural gas reserves, Saudi Arabia and Kuwait are leading the charge to replace oil-fired turbines with more efficient and less polluting gas turbines. Other countries in the region, on the other hand, do not have enough domestic gas to meet their electricity needs. MENA countries are looking at renewables, nuclear, and even coal power to increase generation security when gas is not economical or readily accessible, despite the predicted growth in gas fired generating capacity. Dubai has established a goal of achieving 75% sustainable energy by 2050. By 2030, the majority of nations in the region have set renewable energy targets ranging from anywhere from 13 to 52% of installed capacity. A total of 98 GW of new generation capacity is planned, with another 39 GW likely to be added to the planning pipeline by 2025. Integrating renewable energy into power systems necessitates policy changes and new legislation on the regulatory front. This entails assuring grid

flexibility and stability, incorporating new technologies like battery storage and electric vehicles, and developing financially viable business models.¹

EASTERN EUROPE:

After demand for electricity in Europe fell by 1.3% in 2019 and 4% in 2020, it increased by more than 4% in 2021 to about the pre-pandemic level of 2019. Two factors that were the main drivers of the rebound, (1) The region's economy grew strongly, headed by the industrial sector; (2) Colder temperatures raised heating demand. However, in 2022 the demand is expected to grow at a slower pace of 1.7% owing to the recovery pace of the economy. The most notable development on the supply side in 2021 was the strong growth of coal-fired generation, increasing by more than 11% after a 20% decline in 2020. This was the first increase in coal-fired generation since 2012. The main reasons for this rebound of coal are the strong growth in demand coupled with relatively low growth in renewables generation in 2021 (up 1%, caused by exceptionally low wind speeds). As a result, on year-on-year basis, Europe's emissions surged by 8% in 2021 (4% higher emissions intensity). We expect a fall of 24% by 2024 compared with the pre-pandemic level of 2019 (emissions intensity down 27%). Going forward, the European power market is expected to undergo tremendous transformation. With the region's ambitious emissions targets, rapidly falling costs for clean technologies and the promise of widespread electrification place renewable power generation at the heart of the European energy transition. Europe uses wind and solar to generate a high amount of energy that keeps systems stable and reliable. Change in electricity generation, 2015-2024

LATIN AMERICA:

This Market Requires IEC & IEEE standard Compliance. Vertical Break Switch up to 360kV are different construction products needed in this market. We are working through existing key accounts (e.g. KPIL) to access this market. We are developing a sales agent network in LATAM to grow the business further in this market. It is important to note that LATAM market primarily uses AIS substations.

SOUTHEAST ASIA:

Southeast Asia is expected to have the world's fastest coal power capacity increase. Coal has a key role in Southeast Asia's power generation sector due to plentiful regional supply, particularly in Indonesia, and comparatively inexpensive pricing. Indonesia, Vietnam, and the Philippines have the highest number of coal plants in Southeast Asia, between operational, under construction, and planned phases. With the predicted power demand growth of ~5% between 2022 – 2024 the electricity supply in Southeast Asia continues to be led by coal (around 43%), followed by gas (31%) and then renewables (25%). With the strong emphasis on global emission targets, there is a strong rhetoric for the Southeast Asian countries to ensure the transition to greener, more sustainable energy sources.⁹ In line with the above, by 2025, the ASEAN countries aim to achieve 23% of its primary energy needs through renewable sources. The new generation of renewable energy sources, such as solar and wind energy, have gained a significant place in countries' energy mix. The upper target for solar and wind energy output in the 8th Power Development Plan for 2021-2030, which also contains a vision for 2045, is 18.6 GW and 18 GW, respectively.

UK MARKET:

Energy Transition is leading to several wind farm projects. Integrating new distributed energy plants to the national grid and new connection generation and generation demand. We continue to hold a leading share & Projection & contact system in UK -DNO market. Refurbishment & Retrofit of old substations are also giving us opportunity. With limited players in the market this energy transition is giving growth to our UK demand by ~ 10%

INTEGRATED FACILITY AT MARAIMALAI NAGAR:

Maraimalai Nagar Site was expanded by its capacity by transferring all activities into one site. New Operation will have lower breakeven point and efficient and fast supply chain leading to working capital efficiency improvement. Project Blue Ocean helped in expansion of our facility which helped us for developing Inhouse Base fabrication, resulting in significant increase in Production capacity & reduced Assembly line stoppage. Subsequently cost saving in logistics, no of suppliers reduced, decreased MOP inventory, Percentage of Sales Margin Increased. New Plant approved by PGCIL, NTPC & STEG Tunisia

RISK AND INTERNAL CONTROLS

The Company maintains adequate internal control systems commensurate with the nature of its business and size and complexity of its operations. The internal control systems have been designed to provide reasonable

assurance about recording and providing reliable financial and operational information. The Internal Control process of the Company has been robust and provides reasonable assurance on the reliability of financial information, compliances with laws and regulations in force and realization and optimization of operations. It ensures documentation and evaluation of unit and entity level controls through existing policies and procedures, primarily to identify any significant gaps and define key actions for improvement.

These systems are regularly tested for their effectiveness by Statutory and Internal Auditors. The review also helps to evaluate adequacy of segregation of duties, access rights, delegation of authority, safeguarding assets, etc. The monitoring includes an annual exercise assessing in totality, how the entire internal control system addresses risks and how individual controls interface with each other to create the entire internal control environment. A formal system exists for periodic monitoring and reporting of the results of the internal control self-assessments.

The Internal control processes were audited by the statutory auditors as part of Internal Financial controls over financial reporting audit and termed these controls as adequate and operating effectively. In the highly networked IT environment of the Company, validation of IT security receives focused attention from IT specialist and Statutory Auditors.

The Company has appointed strong and independent internal audit firm of Chartered Accountants. Significant observations made by the internal auditors and follow up actions thereon are reported to the Audit Committee. The Audit Committee reviews the adequacy and effectiveness of the Company's internal control environment and monitors the implementation of internal audit recommendations. During the year, the Company has taken steps to review and document the adequacy and operating effectiveness of internal controls. Transactional processes have been automated by implementing SAP B1 in the company in India and this was the first year run through SAP B1.

OVERALL OUTLOOK

With 6 months of sales as opening order in hand, orderbook remains robust in FY'24,. Energy Transition initiatives towards green energy, inter state and inter country grid integration, e mobility, railway infrastructure electrification and old grid automation and reelectrification are driving demand for our main products and services in emerging and developing markets.

With strong pipeline from Africa, Nepal, Vietnam and Indian customers we are positioned to witness significant improvement in Order Book and Sales in 23-24.

Focus on better inventory management, tight control of T&C and competitive sourcing will continue drive efficient working capital management. Driving Cash as No 1 Priority and measuring Cash Velocity will continue to help us in better cash management.

With existing frame agreements with our key customers and 6 months sales already covered by opening order in Hand, our order book remains robust. Energy transition initiatives in UK, Drive for Automation and encouragement to local manufacture has facilitated demand generation. Our strong position in market and focus on discovery of new segments & new customers for growth will help us in improved order book. Our pipeline is strong for domestic demands

In order to grow our business further we are driving New Business Development for Portable Relay Room. These are major projects and will help us to develop our business.

POTENTIAL IMPACT OF COVID ON FUTURE BUSINESS

Delay in Project implementation due to civil works. Also, decision making in African, Bangladesh and Domestic market slowed down.

CAUTIONARY STATEMENT

Please note these forward-looking statements are subject to numerous risks and uncertainties that are difficult to foresee, and actual outcome might differ.

INDEPENDENT AUDITOR'S REPORT

TO THE MEMBERS OF S&S POWER SWITCHGEAR LIMITED

REPORT ON THE AUDIT OF THE STANDALONE FINANCIAL STATEMENTS

Opinion

We have audited the accompanying standalone financial statements of S&S Power Switchgear Limited ("the Company"), which comprise the Balance Sheet as at 31st March 2023, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and the Statement of Cash Flows for the year then ended and notes to the Standalone Financial Statements, including a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under Section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS") and other accounting principles generally accepted in India of the state of affairs (financial position) of the Company as at 31st March, 2023, its profit and total comprehensive income, changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit of the Standalone Financial Statements in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Standalone Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the independence requirements that are relevant to our audit of Standalone Financial Statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on Standalone Financial Statements.

Material Uncertainty Related to Going Concern

We draw attention to Note 46 of Standalone Financial Statements, which indicates that the accounts are prepared on a going concern basis due to continued financial support of the promoters. The Standalone financial statements do not include any adjustments that would result from the withdrawal of support.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the Standalone Financial Statements of the current period. These matters were addressed in the context of our audit of the Standalone Financial Statements as a whole, and in forming our opinion thereon and we do not provide a separate opinion on these matters.

We have determined the matters described below to be the key audit matters to be communicated in our report.

Key Audit Matter	How our audit addressed the key audit matter
<p>Impairment testing of investments in subsidiaries</p> <p>Refer Note 5 and 6 to the accompanying standalone financial statements.</p> <p>As at 31 March 2023, the carrying amount of investment in subsidiaries viz Acrastyle Power (India) Limited, Acrastyle EPS Technologies Limited and S&S Power Switchgear Equipment Limited is Rs 1301.99 lacs. Further the company has also advanced loans to these subsidiaries and the amount due along with interest accrued thereon as at 31st March 2023 (net of provisions) is Rs 2,343.56 lacs. Acrastyle Power (India) Limited further has invested in two subsidiaries viz Acrastyle Limited, UK and Acrastyle Switchgear Limited, UK.</p> <p>The company reviews the carrying value of these investments at each reporting period. Where considered necessary the Company performs a detailed assessment as required under Ind AS 36.</p> <p>Considering the materiality of the amounts involved, the significant management judgement required in estimating the quantum of diminution in the value of investment and such estimates and judgements being inherently subjective, this matter has been identified as a key audit matter for the current year audit.</p>	<p>Our procedures included, but were not limited to the following:</p> <ul style="list-style-type: none"> • Obtained an understanding of management's process and evaluated design and tested operating effectiveness of controls around identification of indicators of impairment under Ind AS, and around valuation of the business of the subsidiaries to determine recoverable value of the said investment and loans granted, • Assessed the appropriateness of methodology and valuation model used by the management to estimate the recoverable value of investment in the subsidiaries and loans granted; • Assessed the professional competence, objectivity and capabilities of the valuation specialist engaged by the management; • Assessed the reasonableness of assumptions relating to revenue growth rate, gross margins, discount rates etc. based on historical results, current developments and future plans of the business estimated by management using expertise of our valuation specialist on required parameters; • Assessed cash flow forecasts to ensure consistency with current operations of the Company and performed sensitivity analysis on key assumptions used in management's calculated recoverable value. • Based on our procedures, we also considered the adequacy of disclosures in respect of investment in the said subsidiaries and loans granted in the notes to the standalone financial statements.

Information other than the Standalone Financial Statements and Auditor's Report thereon

The Company's Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in the Board's Report including Annexures to that Board's report, Corporate Governance and Shareholder's information but does not include the Standalone Financial Statements and our Auditor's report thereon. Our opinion on the Standalone Financial Statements does not cover the Other Information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Standalone Financial Statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the Standalone Financial Statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial

performance, total comprehensive income, cash flows and changes in equity of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Standalone Financial Statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the Standalone Financial Statements, Management and Board of Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Standalone Financial Statements.

As part of an audit in accordance with Standards on Auditing, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Standalone Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control;
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3) (i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the Company has adequate internal financial control system in place and the operating effectiveness of such controls;
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management;
- Conclude on the appropriateness of managements and Board of Directors use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Standalone Financial Statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern;
- Evaluate the overall presentation, structure and content of the Standalone Financial Statements, including the disclosures, and whether the Standalone Financial Statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the financial statements that, individually or in aggregate, makes it probable that the economic decisions of the reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) Planning the scope of our audit work and in evaluating the results of our work; and (ii) To evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit;

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards;

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the Standalone Financial Statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2020 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Act, and we give in the "Annexure A" a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.
2. As required by Section 143(3) of the Act, we report to the extent applicable that:
 - a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit;
 - b) In our opinion, proper books of accounts as required by law have been kept by the Company so far as it appears from our examination of those books;
 - c) The Balance sheet, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Change in Equity and the Cash Flow Statement dealt with by this Report are in agreement with the relevant books of accounts;
 - d) In our opinion, the aforesaid Standalone Financial Statements comply with the Accounting Standards specified under Section 133 of the Act, read with Companies (Indian Accounting Standards) Rules, 2015, as amended;
 - e) On the basis of the written representations received from the directors as on 31st March, 2023, taken on record by the Board of Directors, none of the directors is disqualified as on 31st March, 2023, from being appointed as a director in terms of Section 164(2) of the Act;
 - f) With respect to the adequacy of the internal financial controls with reference to Standalone Financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure B".
 - g) In our opinion, the managerial remuneration for the year ended March 31, 2023 has been paid/provided by the Company to its directors in accordance with the provision of section 197 read with schedule V of the Act
 - h) With respect to the other matters to be included in the Auditor's Report in accordance with rule 11 of the Companies (Audit and Auditors) Rules, 2014, (as amended), in our opinion and to the best of our information and according to the explanations given to us:
 - (i) The Company has disclosed the impact of pending litigations on its financial position in its standalone financial statements – Refer Note 41 to the Standalone Financial Statements;
 - (ii) The Company did not have any long-term contracts including derivatives contracts for which there were any material foreseeable losses;
 - (iii) There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company;
 - (iv) (a) The Management has represented that, to the best of its knowledge and belief, no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other person(s) or entity(ies), including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;

- (b) The Management has represented, that, to the best of its knowledge and belief, no funds have been received by the company from any person(s) or entity(ies), including foreign entities (“Funding Parties”), with the understanding, whether recorded in writing or otherwise, that the Company shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party (“Ultimate Beneficiaries”) or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries; and
- (c) Based on such audit procedures that we have considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (i) and (ii) contain any material mis-statement;
- (v) There were no amounts which were declared or paid during the year as dividend by the company;
- (vi) As the proviso to Rule 3(1) of the Companies (Accounts) Rules, 2014 is applicable for the Company only w.e.f. April 1, 2023, reporting under this clause is not applicable for the year under audit.

ANNEXURE A TO THE INDEPENDENT AUDITOR'S REPORT

Referred to in para I "Report on Legal and Regulatory Requirements" in our Independent Auditor's Report to the members of S&S Power Switchgear Limited ("the Company") on the Standalone Financial Statements for the year ended March 31, 2023.

To the best of our information and according to the explanations provided to us by the Company and the books of accounts and records examined by us in the normal course of audit, we state that:

- I. (a) In respect of the company's Property, Plant and Equipment and intangible assets;
 - (b) The Company is maintaining proper records showing full particulars, including quantitative details and situation, of tangible (Property, Plant and Equipment) and intangible assets
 - (c) The Company has formulated a phased programme for physical verification of its fixed assets, designed to cover all items over a period of three years. According to the programme, the company has during the year, physically verified the relevant assets. In our opinion, this periodicity of physical verification is reasonable having regard to the size of the Company and the nature of its assets. According to the informations and explanations given to us, no material discrepancies were noticed on such verification;
 - (d) On the basis our examinations of the records of the Company, the company does not have any immovable properties (other than properties where the company is the lessee and the lease agreements are duly executed in favour of the lessee). Hence this clause is not applicable;
 - (e) The Company has chosen cost model for its Property, Plant and Equipment (including Right of Use assets) and intangible assets. Consequently, the question of our commenting on whether the revaluation is based on the valuation by a Registered Valuer, or specifying the amount of change, if the change is 10% or more in the aggregate of the net carrying value of each class of Property, Plant and Equipment (including Right of Use assets) or intangible assets does not arise.
 - (f) The company does not have any proceedings initiated or pending for holding any benami property under Benami Transactions Act, 1988 (as amended in 2016) (formerly the Benami Transactions (Prohibition) Act, 1988 (45 of 1988)) and Rules made thereunder. Hence the requirements under paragraph 3(i)(e) of the companies (Auditor's Report) Order, 2020 are not applicable to the company;
- II. (a) The inventory has been physically verified by the Management at reasonable intervals. Considering the size of the company, the frequency of verification is reasonable and the procedure are adequate. No material discrepancies have been noticed on such verification.
 - (b) During the year, the Company has not been sanctioned working capital limits in excess of Rs. 5 crores, in aggregate, from banks on the basis of security of current assets. Accordingly, reporting under clause 3(ii)(b) of the Order is not applicable.
- III. (a) During the year, the Company has made any investments in, provided any guarantee or security or granted any loans or advances in the nature of loans, secured or unsecured, to companies, firms, limited liability partnerships or any other parties.

Particulars	Loans (in Rs. Lacs)
Aggregate amount granted / provided during the year	1342.91
Balance outstanding as at balance sheet date in respect of the above case	2,343.56

- (b) In respect of the aforesaid loans, the terms and conditions of the grant of loans, during the year are, prima facie, not prejudicial to the Company's interest;
 - (c) The repayment of principal and payment of interest is as stipulated and the same are regular.
 - (d) In respect of the aforesaid loans, there is no amount which is overdue for more than 90 days at the end of the year.
 - (e) There were no loans /advances in nature of loans which fell due during the year and were renewed/ extended. Further, no fresh loans were granted to same parties to settle the existing overdue loans/ advances in nature of loan.
 - (f) During the year the Company has not granted any loans or advances in the nature of the loan either repayable on demand or without specifying any terms or period of repayment. Hence reporting clause 3(iii)(f) of the Order is not applicable.
- IV. The Company has complied with the provisions of Section 185 and 186 of the Companies Act, 2013 ("the Act") in respect of loan granted, investments made and guarantee and securities provided as applicable

- V.** In our opinion and as explained to us, the Company has not accepted any deposits during the year and therefore, the provisions of sections 73 to 76 or any other relevant provisions of the Companies Act, 2013 and the rules framed thereunder are not applicable to the Company.
- VI.** According to the information and explanations given to us, the Company is not required to maintain cost records pursuant to the Companies (Cost Records and Audit) Amendment Rules, 2016, and prescribed by the Central Government under sub-section (1) of section 148 of the Companies Act 2013.
- VII. (a)** According to the information and explanation given to us and the records of the Company examined by us, in our opinion, the Company is generally regular in depositing the undisputed statutory dues including provident fund, employees' state insurance, Income tax, Duty of Customs, Goods and Service Tax and other material statutory dues as applicable and there are no undisputed statutory dues outstanding as at 31st March 2023, for a period of more than six months from the date they became payable.
- (b)** According to the information and explanations given to us and the records of the company examined by us, the particulars of dues of income tax, excise duty and customs duty as at 31st March, 2023 which have not been deposited on account of disputes are as follows:

- VIII.** According to the information and explanations given to us and the records of the company examined by us there are no transactions which are not recorded in the books of account and have been surrendered or disclosed as income during the year in the tax assessments under the Income Tax Act, 1961 (43 of 1961);
- IX. (a)** According to the records of the Company examined by us and the information and explanations given to us, the Company has not defaulted on repayment of dues to financial institutions, banks or the government. The Company has not issued any debentures.
- (b)** The Company is not declared a willful defaulter by any bank or financial institution or other lenders;
- (c)** According to the records of the Company examined by us and the information and explanation given to us, the Company has not taken any term loans during the year;
- (d)** On an overall examination of the standalone financial statements of the Company, funds raised on short- term basis, prima facie, were not used during the year for long-term purposes by the Company;
- (e)** The Company has taken any funds from an entity or person on account of or to meet the obligations of its subsidiaries, associates or joint ventures.

Nature of Fund Taken	Name of Lender	Amount Involved Rs in lacs	Name of the subsidiary	Relations	Purpose for which fund utilized
Short Term	Hamilton & Co	Rs.90/-	S&S Power Switchgear Equipment Limited	subsidiary	Operational support to Subsidiary

- (f)** The Company has not raised any loan during the year on the pledge of securities held in its subsidiaries, joint ventures or associate companies. Accordingly, reporting on clause 3(ix)(e) of the Order is not applicable;
- X. (a)** The Company has not raised money by way of initial public offer or further public offer (including debt instruments) during the year and hence reporting under clause 3(x)(a) of the order not applicable;
- (b)** The Company has not made any preferential allotment or private placement of shares or debentures (fully, partially or optionally convertible) during the year and hence reporting under clause 3(x)(b) of the Order is not applicable to the Company.
- XI. (a)** During the course of our examination of the books and records of the Company, carried out in accordance with the generally accepted auditing practices in India, and according to the information and explanations given to us, we have neither come across any instance of material fraud by the Company or on the Company, noticed or reported during the year, nor have we been informed of any such case by the Management;
- (b)** No report under sub-section (12) of section 143 of the Act has been filed in Form ADT-4 as prescribed under rule 13 of Companies (Audit and Auditors) Rules, 2014 with the Central Government, during the year and up to the date of this report;

- (b) As represented to us by the management, there are no whistle-blower complaints received by the Company during the year;
- XII.** As the Company is not a Nidhi Company and the Nidhi Rules, 2014 are not applicable to it, the reporting under clause 3(xii) of the Order is not applicable to the Company.
- XIII.** In our opinion and according to the information and explanations given to us, the company is in compliance with the provisions of section 177 and 188 of the Companies Act, 2013 where applicable, for all the transactions with the related parties and the details of related party transactions have been disclosed in the Standalone Financial Statements as required by the applicable accounting standards;
- XIV. (a)** In our opinion, the Company has an adequate internal audit system commensurate with size and nature of its business;
- (b)** We have considered internal audit reports for the period under audit, issued to the company during the year and till date, in determining the nature, timing and extent of our audit procedures;
- XV.** According to the information and explanations given to us and based on our examination of the records of the Company, during the year, the Company has not entered into non-cash transactions with directors or persons connected with them. Hence, the provisions of Section 192 of the Act are not applicable
- XVI. (a)** According to the information and explanations given to us and based on our examination of the records of the Company, the Company is not required to be registered under section 45-IA of the Reserve Bank of India Act 1934
- (b)** The Company has not conducted non-banking financial/housing finance activities during the year. Accordingly, the reporting under clause 3(xvi) (b) of the Order is not applicable to the Company.
- (c)** In our opinion and as represented by the management, there is no Core Investment Company (CIC) within the group (as defined in the Core Investment Companies (Reserve bank) Directions, 2016) and accordingly reporting under clause 3(xvi)(c) and 3(xvi)(d) of the Order is not applicable to the Company.
- XVII.** The Company has not incurred any cash losses in the financial year. However, the company has incurred cash losses of Rs.48.38 lakhs in the immediately preceding financial year;
- XVIII.** There has been no resignation of the statutory auditors during the year and accordingly the reporting under clause (xviii) is not applicable;
- XIX.** According to the information and explanations given to us and on the basis of the financial ratios, ageing and expected dates of realization of financial assets and payment of financial liabilities, other information accompanying the standalone financial statements and our knowledge of the Board of Directors and management plans and due to continued financial support of the promoters and based on our examination of the evidence supporting the assumptions nothing has come to our attention, which causes us to believe that any material uncertainty exists as on the date of the audit report that Company is not capable of meeting its liabilities existing at the date of balance sheet as and when they fall due within a period of one year from the balance sheet date. We, however, state that this is not an assurance as to the future viability of the Company. We further state that our reporting is based on the facts up to the date of the audit report and we neither give any guarantee nor any assurance that all liabilities falling due within a period of one year from the balance sheet date will get discharged by the Company as and when they fall due.
- XX.** The provisions of Section 135(5) of the Companies Act 2013 is not applicable to the company. Accordingly, reporting under clause 3(xx)(a) of the Order is not applicable.

ANNEXURE B TO THE INDEPENDENT AUDITOR'S REPORT

Report on the Internal Financial Controls under Clause (i) of sub-section 3 of Section 143 of the Companies Act, 2013 (the "Act")

We were engaged to audit the internal financial controls over financial reporting of S&S Power Switchgear Limited ("the Company") as of March 31, 2023, in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Board of Directors and management of the Company are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls with reference to the financial statements of the company that were operating effectively for ensuring the orderly and efficient conduct of its business, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls with reference to these standalone financial statements based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing as specified under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls, both issued by ICAI.

Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to these standalone financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to standalone financial statements and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls over financial reporting.

Meaning of Internal Financial Controls over financial reporting

A Company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of standalone financial statements for external purposes in accordance with generally accepted accounting principles. A Company's internal financial control controls over financial reporting includes those policies and procedures that

- (1) Pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company;
- (2) Provide reasonable assurance that transactions are recorded as necessary to permit preparation of standalone financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and
- (3) Provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the standalone financial statements.

Inherent Limitations of Internal Financial Controls over financial reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best our information and according to the given to us, the Company has, in all material respects, adequate internal financial controls with reference to Standalone Financial Statements and such internal financial controls over Financial reporting were operating effectively as at 31st March, 2023, based on the internal control with reference to Standalone Financial Statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the ICAI.

Note 37 Employee benefits

[A] Defined contribution plans:

The Company makes contribution towards provident fund to defined contribution retirement benefit plan for qualifying employees. The provident fund contributions are made to Government administered Employees Provident Fund. Both the employees and the Company make monthly contributions to the Provident Fund Plan equal to a specified percentage of the covered employee's salary.

The Company recognised ₹ 6.76 lakhs in current financial year (₹ 7.68 lakhs in immediate previous financial year) for provident fund contributions in the Statement of Profit and Loss.

[B] Defined benefit plan:

The Company makes annual contributions to Employees' Gratuity Fund which is administered by the Life Insurance Corporation of India. Having regard to the assets of the gratuity fund and the return on the investment the company does not expect any deficiency as at the year end. The scheme provides for payment to vested employees as under:

- i) On normal retirement / early retirement / withdrawal / resignation: As per the provisions of Payment of Gratuity Act, 1972 with vesting period of 5 years of service.
- ii) On death in service: As per the provisions of Payment of Gratuity Act, 1972 without any vesting period.

Investment risk:

The present value of the defined benefit plan liability is calculated using a discount rate which is determined by reference to market yields at the end of the reporting period on government bonds. If the return on plan asset is below this rate, it will create plan deficit.

Interest risk:

A decrease in the bond interest rate will increase the plan liability; however, this will be partially off set by an increase in the plan assets.

Longevity risk:

The present value of the defined benefit plan liability is calculated by reference to the best estimate of the mortality of plan participants both during and after their employment. An increase in the life expectancy of the plan participants will increase the plan's liability.

Salary risk:

The present value of the defined benefit plan liability is calculated by reference to the future salaries of plan participants. As such, an increase in the salary of the plan participants will increase the plan's liability.

The following table sets out the status of the gratuity plan and the amounts recognised in the standalone financial statements:

Expected Outgo Year 5	15.88	1.16
Expected Outgo Next 5 Years	0.68	16.35

j) Sensitivity analysis

Significant actuarial assumptions for the determination of the defined benefit obligation are discount rate and expected salary increase. The sensitivity analysis below has been determined based on reasonably possible changes of the respective assumptions occurring at the end of the reporting period, while holding all other assumptions constant.

Particulars	DR: Discount Rate		ER: Salary Escalation Rate	
	PVO DR + 0.5%	PVO DR - 0.5%	PVO ER + 0.5%	PVO ER - 0.5%
PVO	16.64	17.36	17.10	16.89

Although the analysis does not take account of the full distribution of cash flows expected under the plan, it does provide an approximation of the sensitivity of the assumptions shown.

Based on the actuarial valuation obtained in this respect, the following table sets out the status of the gratuity plan and the amounts recognised in the Company's financial statements as at balance sheet date:

Total employee benefit liabilities	Note	31st Mar, 2023	31st Mar, 2022
Provision for employee benefits - gratuity	20 & 25	(15.94)	(17.90)

Note 38 Financial instruments
[A] Capital Management:

The Company's policy is to maintain a strong capital base so as to ensure that the Company is able to continue as going concern to sustain future development of the business. The Company monitors the return on capital as well as the level of dividends to ordinary shareholders.

Its guiding principles

- i) Maintenance of financial strength to ensure the highest ratings;
- ii) Ensure financial flexibility and diversify sources at financing;
- iii) Manage Company exposure in forex to mitigate risks to earnings;
- iv) Leverage optimally in order to maximum shareholders returns while maintaining strength and flexibility of the balance sheet.

The policy is also adjusted based on underlying macro-economic factors affecting business environment, financial and market conditions.

The gearing ratio at the end of the reporting period are as under:

(₹ in Lakhs)

Particulars	As at 31st Mar, 2023	As at 31st Mar, 2022
Total Borrowings*	1,676.35	1,513.45
Less: Cash and cash equivalent	(1.21)	(2.06)
Adjusted net debt	1,675.14	1,511.39
Total equity	2,058.46	1,108.93
Adjusted net debt to adjusted equity ratio	0.81	1.36

* Total Borrowings includes reclassification of dues to related parties from other financial liabilities-current to Non-Current Borrowings during the year as these were restructured as long-term loans repayable on maturity. Hence only interest accrued but not due is classified as current borrowings for year ended 31st Mar 2023. Previous year "Due to related parties" is reclassified to current borrowings from other financial liabilities-current.

[B] Valuation:

All financial instruments are initially recognised and subsequently re-measured at fair value as described below:

- i) The fair value of investment in quoted Equity shares, Bonds, Government Securities and Mutual funds is measured at quoted price or NAV.
- ii) The fair value of Forward Foreign Exchange contracts is determined using forward exchange rates at the balance sheet date.
- iii) All foreign currency denominated assets and liabilities are translated using exchange rate at reporting date.
- iv) The fair value of the remaining financial instruments is determined using discounted cash flow analysis.

[C] Fair value measurement hierarchy:

(₹ in Lakhs)

Particulars	Carrying amount	
	As at 31st Mar, 2023	As at 31st Mar, 2022
Financial assets		
At FVTPL	Nil	Nil
At FVTOCI	Nil	Nil
At Amortised cost		
Trade receivables	34.16	104.46
Cash and cash equivalents	1.21	2.06
Bank balances other than above	2.06	2.06

Financial liabilities		
At Amortised cost		
Borrowings	1,676.35	1,513.45
Trade payables	53.75	85.53

The financial instruments are categorised into three levels based on the inputs used to arrive at fair value measurements as described below:

- i) **Level 1:** Level 1 hierarchy includes financial instruments measured using quoted prices.
- ii) **Level 2:** The fair value of financial instruments that are not traded in an active market is determined using valuation techniques which maximise the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2. In the case of the mutual funds are valued using the closing NAV. In the case of Derivative contracts, the Company has valued the same using the forward exchange rate as at the reporting date.
- iii) **Level 3:** If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3. This is the case for unlisted equity securities included in level 3. The Company owns unlisted equity shares in companies, which are non-profit companies providing facilities for treating effluents generated during its manufacturing process. In the absence of any observable market data in relation to the said companies, the same have been categorised as Level 3. Considering the objective of investment and materiality, its fair value have been considered same as cost as at the reporting date.

Note 39 Financial risk management

Risk management framework

The Company's Board of Directors has overall responsibility for the establishment and oversight of the Company's risk management framework.

The Company's risk management policies are established to identify and analyse the risks faced by the Company, to set appropriate risk limits and controls and to monitor risks. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Company's activities.

The audit committee oversees how the management monitors compliance with the Company's risk management policies and procedures, and reviews the adequacy of the risk management framework in relation to the risks faced by the Company. The audit committee is assisted by internal audit. Internal audit undertakes both regular and ad hoc reviews of risk management controls and procedures, the results of which are reported to the audit committee.

The Company has exposure to the following risks arising from financial instruments:

- A) Credit risk;
- B) Liquidity risk;
- C) Market risk; and
- D) Interest rate risk

[A] Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Company's receivables from customers, loans and investment in debt securities. Credit risk is managed through credit approvals, establishing credit limits and continuously monitoring the creditworthiness of customers to which the Company grants credit terms in the normal course of business. The Company establishes an allowance for doubtful trade receivables and impairment that represents its estimate of incurred losses in respect of trade and other receivables and investments.

The maximum exposure to credit risk in case of all the financial instruments covered below is restricted to their respective carrying amount.

Trade and other receivables

The Company's exposure to credit risk is influenced mainly by the individual characteristics of each customer. The demographics of the customer and including the default risk of the industry, also has an influence on credit risk assessment. Credit risk is managed through credit approvals, establishing credit limits and continuously monitoring the creditworthiness of customers to which the Company grants credit terms in the normal course of business.

The Company considers the probability of default upon initial recognition of asset and whether there has been a significant increase in credit risk on an ongoing basis through each reporting period. To assess whether there is a significant increase in credit risk the Company compares the risk of default occurring on asset as at the reporting date with the risk of default as at the date of initial recognition. It considers reasonable and supportive forwarding-looking information such as:

- i) Actual or expected significant adverse changes in business;
- ii) Actual or expected significant changes in the operating results of the counterparty;
- iii) Financial or economic conditions that are expected to cause a significant change to the counterparty's ability to meet its obligations;
- iv) Significant increase in credit risk on other financial instruments of the same counterparty;
- v) Significant changes in the value of the collateral supporting the obligation or in the quality of the third-party guarantees or credit enhancements.

Financial assets are written off when there is no reasonable expectations of recovery, such as a debtor failing to engage in a repayment plan with the Company. Where loans or receivables have been written off, the Company continues to engage in enforcement activity to attempt to recover the receivable due. Where recoveries are made, these are recognized as income in the statement of profit and loss.

The Company measures the expected credit loss of trade receivables based on historical trend, industry practices and the business environment in which the entity operates. Loss rates are based on actual credit loss experience and past trends.

Loans

In the case of loans to concerned employees, the same is managed by establishing limits. (Which in turn based on the employees' salaries and number of years of service put in by the concern employee)

Cash and cash equivalents

The Company held cash and cash equivalents of ₹ 1.21 lakhs at 31st Mar, 2023 (₹ 2.06 lakhs at 31st Mar, 2022). The cash and cash equivalents are held with bank and financial institution counterparties with good credit ratings.

[B] Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The responsibility for liquidity risk management rests with the board of directors, which has established an appropriate liquidity risk management framework for the management of the Company's short-term, medium-term and long-term funding and liquidity management requirements. The Company manages liquidity risk by maintaining adequate reserves, banking facilities and reserve borrowing facilities, by continuously monitoring forecast and actual cash flows, and by matching the maturity profiles of financial assets and liabilities.

Hence only interest accrued but not due is classified as current borrowings for year ended 31st Mar 2023. Previous year "Due to related parties" is reclassified to current borrowings from other financial liabilities-current.

The following table details the Company's expected maturity for its non-derivative financial assets. The table has been drawn up based on the undiscounted contractual maturities of the financial assets including interest that will be earned on those assets. The inclusion of information on non-derivative financial assets is necessary in order to understand the Company's liquidity risk management as the liquidity is managed on a net asset and liability basis.

(₹ in Lakhs)

Note:

The current liabilities include inter corporate deposits from related parties which are repayable on demand. Based on past experience, the Company does not expect immediate demand for repayment of such deposits

[C] Market risk

Market risk is the risk that changes in market prices – such as foreign exchange rates, interest rates and equity prices – will affect the Company's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return.

[D] Currency risk

The Company is not exposed to the foreign currencies transactions hence the disclosure is not applicable

[E] Interest rate risk

Interest rate risk can be either fair value interest rate risk or cash flow interest rate risk. Fair value interest rate risk is the risk of changes in fair values of fixed interest-bearing investments because of fluctuations in the interest rates, in cases where the borrowings are measured at fair value through profit or loss. Cash flow interest rate risk is the risk that the future cash flows of floating interest-bearing investments will fluctuate because of fluctuations in the interest rates. The Company's investments are primarily in fixed rate interest bearing investments. Hence, the Company is not significantly exposed to interest rate risk. Also, there is no material interest risk relating to the Company's financial liabilities.

[F] Fair Values:

The following table presents the carrying amounts and fair value of each category of financial assets and liabilities.

(₹ in Lakhs)

	185.10	-	185.10	1,598.98	-	1,598.98

The management assessed that cash and cash equivalents, other bank balances, trade receivables, loans and advances, other financial assets, short term borrowings, trade payables and other current financial liabilities approximate their carrying amounts largely due to the short-term maturities of these instruments

The fair value of the financial assets and liabilities is included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale. The following methods and assumptions were used to estimate the fair values:

Derivatives are fair valued using market observable rates.

b) For Asst. year 2007-08, Department has filed an appeal against the CIT(A)'s order directing the deletion of addition made representing waiver of principal portion of loans from banks and financial institutions and the consequential tax demand is ₹ 92.98 lakhs. The said appeal is pending as at the reporting date.	92.98	92.98

Note:

The Company is a party to various legal proceedings in the normal course of business and does not expect the outcome of these proceedings to have any material adverse effect on its financial conditions, results of operations or cash flows. Further, claims by parties in respect of which the Management have been legally advised that the same are frivolous and not tenable, have not been considered as contingent liabilities as the possibility of an outflow of resources embodying economic benefit is highly remote.

There are numerous interpretative issues relating to the Supreme Court (SC) Judgement on PF dated 28th February, 2019. The company will update its provision, on receiving further clarity on the subject.

In respect of the items above, further cash outflows in respect of contingent liabilities are determinable only on receipt of judgements/decisions pending at various forums/authority. The company does not expect the outcome of matters stated above to have a material adverse effect on the company's financial conditions, result of operations or cash flows.

Note 43 CSR Expenditure

The Company does not meet the turnover and net worth criteria specified under Section 135 of the Companies Act, 2013 to constitute a Corporate Social Responsibility Committee. Thus, provisions of Section 135 and disclosure requirements specified therein are not applicable to the company.

INDEPENDENT AUDITOR'S REPORT

TO THE MEMBERS OF S&S POWER SWITCHGEAR LIMITED

Report on the Audit of the Consolidated Financial Statements

Opinion

We have audited the accompanying Consolidated Financial Statements of S&S Power Switchgear Limited ('the Holding Company') and its subsidiaries (the Holding Company and its subsidiaries together referred to as 'the Group'), which comprise the Consolidated Balance Sheet as at 31st March 2023, the Consolidated Statement of Profit and Loss (including Other Comprehensive Income), the Consolidated Statement of Changes in Equity and the Consolidated Statement of Cash Flow for the year then ended on that date and notes to the Consolidated Financial Statements, including a summary of the significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us the aforesaid Consolidated Financial Statements give the information required by the Companies Act, 2013 ('the Act') in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with Companies (Indian Accounting Standards) Rules, 2015, as amended, and other accounting principles generally accepted in India, of the consolidated state of affairs (consolidated financial position) of the Group as at 31st March 2023, its consolidated Profit and consolidated total comprehensive income, the consolidated changes in equity and its consolidated cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit of Consolidated Financial Statements in accordance with the Standards on Auditing (SAs) specified under Section 143(10) of the Act. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the independence requirements that are relevant to our audit of the Consolidated Financial Statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on Consolidated Financial Statements.

Going concern

We draw attention to Note 45 of Consolidated financial statements, which indicates that the accounts are prepared on a going concern basis due to continued financial support of the promoters. The Consolidated Financial Statements do not include any adjustments that would result from the withdrawal of support.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment were of most significance in our audit of the consolidated financial statements for the financial year ended 31st March 2023. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

We have determined the following key audit matters to be communicated in our report.

Together with external valuation experts, evaluated the assumptions and methodologies used in the DCF and earnings multiple models, in particular those relating to the cash flow projections used, discount rates and terminal growth rates applied, by <ul style="list-style-type: none"> • Evaluating the reasonableness of the cash flow projections by comparing with the approved budgets, previous year performance and our knowledge and understanding of current business conditions. • Determining a range of acceptable discount rates and terminal growth rates, with reference to valuations of similar companies and other relevant external data and comparing this range to the discount rates and terminal growth rates adopted by the Company. c. Tested the arithmetical accuracy of the calculations carried out by the Management. <p>Based on above procedures performed, we found the management's assessment of carrying value of goodwill to be reasonable.</p>

Information other than the Consolidated Financial Statement and Auditor's Report thereon

The Holding Company's Board of Directors is responsible for other information. The other information comprises the information included Board's Report including Annexures to that Board's Report, Corporate Governance and Shareholder's Information, but does not include the Consolidated Financial Statements and our auditor's report thereon.

Our opinion on the Consolidated Financial Statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and in doing so, consider whether the other information is materially inconsistent with the Consolidated Financial Statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Act with respect to the preparation of these Consolidated Financial Statements that give a true and fair view of the consolidated financial position, consolidated financial performance including consolidated total comprehensive income, consolidated changes in equity and consolidated cash flows of the Group in accordance with the Ind AS and other accounting principles generally accepted in India, including the Accounting Standards specified under Section 133 of the Act.. The respective Board of Directors of the Companies included in the group are also responsible for maintenance of the adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Group and for preventing and detecting frauds and other irregularities; selection

and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Consolidated Financial Statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the Consolidated Financial Statements, respective management and Board of Directors of the Companies included in the Group are responsible for assessing the ability of the respective companies included in the Group to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the companies included in the Group or to cease operations, or has no realistic alternative but to do so;

The respective Board of Directors of the companies included in the Group is responsible for overseeing the financial reporting process of the Group.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the Consolidated Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Consolidated Financial Statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Consolidated Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3)(i) of the Companies Act 2013, we are also responsible for expressing our opinion on whether the Group has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of Management and Board of Directors use of the going concern basis of accounting and based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Consolidated Financial Statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the Consolidated Financial Statements, including the disclosures, and whether the Consolidated Financial Statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the Consolidated Financial Statements. We are responsible for the direction, supervision and performance of the audit of the financial statements of such entities included in the Consolidated Financial Statements of which we are the independent auditors. For the other entities included in the Consolidated Financial Statements, which have been audited by the other auditors, such other auditors remain responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion.

Materiality is the magnitude of misstatements in the Consolidated Financial Statements that, individually or in aggregate, makes it probable that the economic decisions of the reasonably knowledgeable user of the Consolidated Financial Statements may be influenced. We consider quantitative materiality and qualitative factors in (i) Planning the scope of our audit work and in evaluating the results of our work; and (ii) To evaluate the effect of any identified misstatements in the Consolidated Financial Statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Other Matters

We did not audit the financial statements of 2 step down subsidiaries included in the statement: whose financial statements reflects total assets of Rs. 7750.21 Lakhs, total liabilities Rs.6301.99 Lakhs as at 31st March, 2023; total revenue of Rs.9627.39 Lakhs, total profit after tax of Rs.127.76 and total comprehensive income of Rs.179.94 Lakhs and net cash outflow of Rs.172.48 Lakhs for the year ended 31st March 2023 as considered in the Consolidated Financial Results.

These financial statements have been audited by other auditors whose reports have been furnished to us by the management and our report on the consolidated financial results, in so far as it relates to the aforesaid subsidiaries is based solely on the reports of the other auditors.

Our opinion on the Consolidated Financial Statements, and our report on Other Legal and Regulatory Requirements below, are not modified in respect of the above matters with respect to our reliance on the work done and the reports of the other auditors.

Report on Other Legal and Regulatory Requirements

1. (a) As required by paragraph 3(xxi) of the Companies (Auditors' Report) Order, 2020 ("CARO 2020"), issued by the Central Government of India in terms of sub-section (11) of Section 143 of the Act, we report that there are no qualifications or adverse remarks in the CARO 2020 reports issued in respect of the financial statements of three companies which are included in these Consolidated Financial Statements.

ANNEXURE A TO THE INDEPENDENT AUDITOR'S REPORT

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Act

We have audited the internal financial controls with reference to consolidated financial statements of S&S Power Switchgear Limited (hereinafter referred to as "Parent") and its subsidiary and associate companies wherein such audit of internal financial controls over financial reporting was carried out by other auditors whose reports have been forwarded to us and have apparently dealt with by us in making this report as on of 31st March, 2023 in conjunction with our audit of the consolidated financial statements of the Company for the year ended on that date.

MANAGEMENT'S RESPONSIBILITY FOR INTERNAL FINANCIAL CONTROLS

The Management of the Parent and its subsidiary company, which are companies incorporated in India, are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal controls stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls with reference to Financial Statement of the Company that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to respective Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

AUDITOR'S RESPONSIBILITY

Our responsibility is to express an opinion on the Company's internal financial controls with reference to financial statements of the Parent and its subsidiary company, incorporated in India based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing specified under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statement was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to financial statements of the company and their operating effectiveness. Our audit of internal financial control over financial reporting included obtaining an understanding of internal financial controls with reference to Consolidated Financial Statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the Consolidated Financial Statements, whether due to fraud or error.

We believe that the audit evidence we have obtained, and the audit evidence obtained by the other auditors in terms of their reports referred to in the Other Matters paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

MEANING OF INTERNAL FINANCIAL CONTROLS OVER FINANCIAL REPORTING

A company's internal financial controls over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of Consolidated Financial Statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that:

1. pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
2. provide reasonable assurance that transactions are recorded as necessary to permit preparation of Financial Statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and

3. provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

INHERENT LIMITATIONS OF INTERNAL FINANCIAL CONTROLS WITH REFERENCE TO FINANCIAL STATEMENTS

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

OPINION

In our opinion, the parent and its subsidiary company, which are companies incorporated in India, has in all material respects, an adequate internal financial controls over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March, 2023, based on the internal control with reference to Consolidated Financial Statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the ICAI.

Ind AS 102 – Share-based Payment – modification relating to adjustment after vesting date to the fair value of equity instruments granted

Ind AS 103 – Business Combination – modification relating to disclosures to be made in the first financial statements following a business combination.

Ind AS 107 – Financial Instruments Disclosures – modification relating to disclosure of material accounting policies including information about basis of measurement of financial instruments.

Ind AS 109 – Financial Instruments – modification relating to reassessment of embedded derivatives.

Ind AS 1 - Presentation of Financials Statements – modification relating to disclosure of 'material accounting policy information' in place of 'significant accounting policies'.

Ind AS 8 - Accounting Policies, Change in Accounting Estimates and Errors – modification of definition of 'accounting estimate' and application of changes in accounting estimates.

Ind AS 12 – Income Taxes – modification relating to recognition of deferred tax liabilities and deferred tax assets.

Ind AS 34 – Interim Financial Reporting – modification in interim financial reporting relating to disclosure of 'material accounting policy information' in place of 'significant accounting policies'

Note 2 Basis of Preparation

A. Statement of Compliance

The Consolidated financial statements comply in all material aspects with Indian Accounting Standards (Ind AS) as per the Companies (Indian Accounting Standards) Rules, 2015 notified under Section 133 of Companies Act, 2013, (the 'Act') and other relevant provisions of the Act as amended from time to time

The financial statements were authorized for issue by the Company's Board of Directors on 30th May 2023.

Details of the Company's accounting policies are included in Note 3.

B. Principles of Consolidation and Equity Accounting

S & S Power Switchgear Limited consolidates entities which it owns or controls. The Consolidated financial statements comprise the financial statements of the Company, its controlled and its subsidiaries as disclosed in Note 2.B2

1. **Subsidiary:** Subsidiaries are all entities (including structured entities) over which the group has control. The group controls an entity when the group is exposed to, or has rights to, variable returns from its involvement with the entity and can affect those returns through its power to direct the relevant activities of the entity. Subsidiaries are fully consolidated from the date on which control is transferred to the group. They are deconsolidated from the date that control ceases. The acquisition method of accounting is used to account for business combinations by the group. The group combines the financial statements of the parent and its subsidiaries line by line adding together like items of assets, liabilities, equity, income and expenses. Intercompany transactions, balances and unrealized gains on transactions between group companies are eliminated. Unrealized losses are also eliminated unless the transaction provides evidence an impairment of the transferred asset. Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the group.

2. **Equity Method:** Under the equity method of accounting, the investments are initially recognised at cost and adjusted thereafter to recognise the group's share of post-acquisition profit or losses of the investee in profit and loss, and the group's share of other comprehensive income of the investee in other comprehensive income. Dividends received or receivable from joint ventures are recognised as reduction in the carrying amount of the investment.

When the group's share of losses in an equity-accounted investment equals or exceeds its interest in the entity, including any other unsecured long-term receivables, the group does not recognise further losses, unless it has incurred obligations or made payments on behalf of the other entity.

The carrying amount of equity accounted investments are tested for impairment in accordance with the policy described in note VI below

C. Functional and presentation currency

Items included in the consolidated financial statements of the Company are measured using the currency of the primary economic environment in which the entity operates ("the functional currency"). These financial statements are presented in Indian Rupees (₹), which is also the Company's functional and presentation currency. All amounts have been rounded-off to the nearest lakhs, unless otherwise indicated.

D. Current and non-current classification

The Company presents assets and liabilities in the balance sheet based on current/non-current classification.

An asset is treated as current when it is:

Expected to be realized or intended to be sold or consumed in normal operating cycle,

- Held primarily for the purpose of trading,
- Expected to be realized within twelve months after the reporting period or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.
- All other assets are classified as non-current.

A liability is treated as current when:

- It is expected to be settled in normal operating cycle,
- It is held primarily for the purpose of trading,
- It is due to be settled within twelve months after the reporting period or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

All other liabilities are classified as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

The operating cycle is the time between the acquisition of assets for processing and their realization in cash or cash equivalents. The Company has identified twelve months as its operating cycle.

E. Basis of Measurement

The financial statements have been prepared on a historical cost basis, except for certain financial instruments which are measured at fair values as per the provisions of the Companies Act, 2013 and guidelines issued by the Securities and Exchange Board of India (SEBI) for the following:

Item	Measurement basis
Certain financial assets and liabilities (including derivatives instrument)	Fair value
Net defined benefit (asset)/liability	Fair value of plan assets less present value of defined benefit obligations

F. Critical estimates and judgements

The preparation of financial statements requires the use of accounting estimates which, by definition will seldom equal the actual results. Management also needs to exercise judgement in applying the Company's accounting policies. This note provides an overview of the areas that involved a higher degree of judgement or complexity, and of the items which are more likely to be materially adjusted due to estimates and assumptions turning out to be different than those originally assessed. Detailed information about each of these estimates and judgements is included in relevant notes together with information about the basis of calculation for each affected line items in the financial statements.

In the process of applying the Company's accounting policies, management has made the following estimates, assumptions and judgments, which have significant effect on the amounts recognized in the financial statement:

Property, plant and equipment

External adviser or internal technical team assesses the remaining useful lives and residual value of property, plant and equipment. Management believes that the assigned useful lives and residual value are reasonable.

Intangibles

Internal technical or user team assesses the remaining useful lives of Intangible assets. Management believes that assigned useful lives are reasonable.

Income taxes

Management judgment is required for the calculation of provision for income taxes and deferred tax assets and liabilities. The Company reviews at each balance sheet date the carrying amount of deferred tax assets. The factors used in estimates may differ from actual outcome which could lead to significant adjustment to the amounts reported in the financial statements.

Contingencies

Management judgment is required for estimating the possible outflow of resources, if any, in respect of contingencies/claim/litigations against the Company as it is not possible to predict the outcome of pending matters with accuracy.

Allowance for uncollected accounts receivable and advances

Trade receivables do not carry any interest and are stated at their normal value as reduced by appropriate allowances for estimated irrecoverable amounts. Individual trade receivables are written off when management deems them not to be collectible. Impairment is made on the expected credit losses, which are the present value of the cash shortfall over the expected life of the financial assets.

Insurance claims

Insurance claims are recognized when the Company has reasonable certainty of recovery. Subsequently any change in recoverability is provided for.

Assumptions and estimation uncertainties

Information about assumptions and estimation uncertainties that have a significant risk of resulting in a material adjustment in the year ending 31st March, 2023 is included in the following notes:

- Note 35 measurement of defined benefit obligations: key actuarial assumptions;
- Notes 39 – recognition and measurement of provisions and contingencies: key assumptions about the likelihood and magnitude of an outflow of resources;

Allowance for Inventories

Management reviews the inventory age listing on a periodic basis. This review involves comparison of the carrying value of the aged inventory items with the respective net realizable value. The purpose is to ascertain whether an allowance is required to be made in the financial statements for any obsolete and slow moving items. Management is satisfied that adequate allowance for obsolete and slow-moving inventories has been made in the financial statements.

G. Measurement of fair values

A number of the Company's accounting policies and disclosures require measurement of fair values, for both financial and non-financial assets and liabilities.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible by the Company.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

The Company has an established control framework with respect to the measurement of fair values.

This includes a valuation team that has overall responsibility for overseeing all significant fair value measurements, including Level 3 fair values, and reports directly to the chief financial officer.

The valuation team regularly reviews significant unobservable inputs and valuation adjustments. If third party information, such as broker quotes or pricing service, is used to measure fair values, then the valuation team assesses the evidence obtained from the third parties to support the conclusion that these valuations meet the requirements of Ind AS, including the level in the fair value hierarchy in which the valuations should be classified.

Fair values are categorized into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows.

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities;
- Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

When measuring the fair value of an asset or a liability, the Company uses observable market data as far as possible. If the inputs used to measure the fair value of an asset or a liability fall into different levels of the fair value hierarchy, then the fair value measurement is categorized in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

The Company recognizes transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred.

Further information about the assumptions made in measuring fair values is included in Note 36 – financial instruments

Note 3 Significant Accounting Policies

This note provides a list of the significant accounting policies adopted in the preparation of the Group Financial Statements.

I. INVENTORIES

Inventories are measured at lower of cost and net realizable value. Cost of inventories is determined on a First in First Out (FIFO) / weighted average basis respectively (as mentioned below), after providing for obsolescence and other losses as considered necessary. Cost includes expenditure incurred in acquiring the inventories, reduction and conversion costs and other costs incurred in bringing them to their present location and condition. In the case of work-in-progress and finished goods, cost includes an appropriate proportion of fixed production overheads based on normal operating capacity and, where applicable, excise duty.

Net realizable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and selling expenses.

Raw materials and other supplies held for use in the production of finished products are not written down below cost except in cases where material prices have declined and it is estimated that the cost of the finished products will exceed their net realizable value.

Items of Inventory are valued on the principle laid down by the Ind AS 2 on Inventories on the basis given below:

(a) Raw Materials, Stores & Spares (that are not capitalized) and Fuel	Lower of cost (determined on weighted average basis) and net realizable value
(b) Packing Material	Lower of cost (determined on FIFO basis) and net realizable value
(c) Work-in-Progress	Lower of cost and net realizable value. Cost includes direct materials, labour and a proportion of manufacturing overheads based on normal operating capacity.
(d) Finished Goods	Lower of cost and net realizable value. Cost includes direct materials, labour, a proportion of manufacturing overheads based on normal operating capacity and excise duty

II. Foreign currency transactions and balances

Transactions in foreign currency are initially recorded at the functional currency spot rates at the date the transaction first qualifies for recognition.

At each balance sheet date, the foreign currency monetary items are reported at the functional currency spot rates of exchange. Exchange differences that arise on settlement or on translation of monetary items are recognized as income or expenses in the Statement of Profit and Loss, except exchange differences arising from the translation of the following items which are recognized in OCI:

- equity investments at fair value through OCI (FVOCI); and
- qualifying cash flow hedges to the extent that the hedges are effective.

Monetary items: A monetary item for which settlement is neither planned nor likely to occur in the foreseeable future is considered as a part of the entity's net investment in that foreign operation.

Non-monetary items: A non-monetary items are items that are measured at fair value in a foreign currency are translated using exchange rates at the date when the fair value was determined. Translation differences on assets and liabilities carried at fair value are reported as a part of the fair value gain or loss.

Group Companies:

The results and financial position of foreign operations (none of which has the currency of a hyper-inflationary economy) that have a functional currency different from presentation currency are translated into the presentation currency as follows:

- a. Assets and liabilities are translated at the closing rate at the date of that Balance Sheet
- b. Income and expenses are translated at average exchange rate (unless this is not a reasonable approximation of the cumulative effect of the rates prevailing on the transaction dates, in which incomes and expenses are translated at the dates of the transactions), and all resulting foreign exchange differences are recognised in other comprehensive income. When a foreign operation is sold, the associated exchange differences are reclassified to profit or loss, as part of the gain or loss on sale, Goodwill and fair value adjustments arising on the acquisition of a foreign operation are treated as assets and liabilities of the foreign operation and translated at the closing rate.

The results and financial position of foreign operation which have a functional currency similar to the Company are translated using the same principles enumerated in Note 3.ii above.

III. REVENUE RECOGNITION

Sale of Goods:

Revenue from contracts with customers is recognised when control of the goods or services are transferred to the customer at an amount that reflects the consideration to which the Company expects to be entitled in exchange for those goods or services.

Revenue from the sale of goods is recognized at the point in time when control of the asset is transferred to the customer, generally on the delivery of the goods.

Revenue is recognisable to the extent of the amount that reflects the consideration (i.e. the transaction price) to which the Company is expected to be entitled in exchange for those goods or services excluding any amount received on behalf of third party (such as indirect taxes). The transaction price is determined on the basis of agreement entered into with the customer.

The Company satisfies the performance obligation and recognises revenue over time, if one of the criteria prescribed under Ind AS 115 - "Revenue from Contracts with Customers" is satisfied. If a performance obligation is not satisfied over time, then revenue is recognised at a point in time at which the performance obligation is satisfied.

The Company recognises revenue for performance obligation satisfied over time only if it can reasonably measure its progress towards complete satisfaction of the performance obligation. The Company would not be able to reasonably measure its progress towards complete satisfaction of a performance obligation if it lacks reliable information that would be required to apply an appropriate method of measuring progress. In those circumstances, the Company recognises revenue only to the extent of cost incurred until it can reasonably measure outcome of the performance obligation.

Rendering of Services

Revenue from service contracts are recognised net of GST, when all of the following conditions are satisfied.

- The amount of revenue can be measured reliably
- It is probable that the economic benefit associated with the transaction will flow to the Company.
- The stage of completion of transaction at the end of the reporting period can be measured reliably.
- The cost incurred for the transaction and the cost to complete the transaction can be measured reliably

Export Incentives:

Export incentives available under prevalent schemes are recognized in the year when the right to receive credit as per the terms of the scheme is established in respect of exports made and are accounted to the extent there is no significant uncertainty about the measurability and ultimate utilization/realization of such duty credit.

Scrap Sale:

Income from sale of scrap is accounted for on realisation;

Interest Income:

Interest income is recognized using the effective interest rate (EIR) method and subject to the following conditions:

- The amount of revenue can be measured reliably
- It is probable that the economic benefit associated with the transaction will flow to the Company.

Dividend Income:

Dividend income on investments is recognised when the following conditions have been satisfied:

- a. right to receive dividend is established.
- b. It is probable that the economic benefits associated with the transaction will flow to the Company.
- c. The amount of dividend can be measured reliably.

Insurance claims:

Insurance claims are accounted for on the basis of claims admitted / expected to be admitted and to the extent that the amount recoverable can be measured reliably and it is reasonable to expect ultimate collection.

Rent:

Rental income is recognised on accrual basis in accordance with terms of respective rent agreements

IV. Income Taxes:

The Income tax expense or credit for the period is the tax payable on the current period's taxable income based on the applicable income tax rate adjusted by changes in deferred tax assets and liabilities attributable to temporary differences and to unused tax losses. Current tax liabilities (Assets) for the current and prior periods are measured at the amount expected to be paid to (recovered from) the taxation authorities, using the tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions where appropriate on the basis of amounts expected to be paid to tax authorities.

Deferred tax: Deferred tax is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. However, deferred tax liabilities are not recognized if they arise from the initial recognition of goodwill. Deferred income tax is also not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting profit nor taxable profit (tax loss). Deferred income tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the end of the reporting period and are expected to apply when the related deferred income tax asset is realized, or deferred income tax liability is settled.

Deferred tax assets are recognized for all deductible temporary differences and unused tax losses only if it is probable that future taxable amounts will be available to utilize those temporary difference and losses.

Deferred tax liabilities are not recognized for temporary differences between carrying amounts and tax bases of investment in subsidiaries and interest in joint arrangements where it is not probable that the differences will reverse in the foreseeable future and taxable profits will not be available against which temporary differences can be utilized.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority. Current tax assets and tax liabilities are offset when there is a legally enforceable right to offset and intends to settle on a net basis, or to realize the assets and settle the liability simultaneously.

Current and deferred tax is recognised in profit or loss, except to the extent that it relates to items recognized in other comprehensive income or directly in equity. In this case, the tax is also recognized in other comprehensive income or directly in equity, respectively.

Minimum Alternate Tax (MAT): Minimum Alternate Tax is applicable to the Company. Credit of MAT is recognized as a part of deferred tax assets. As deferred tax asset shall be recognized for the carry forward of unused tax losses and unused tax credits to the extent that it is probable that future taxable profits will be available against which the unused tax losses and unused tax credits can be utilized.

V. LEASES

A contract is, or contains, a lease if the contract conveys right to control the use of an identified asset for a period of time in exchange for consideration.

Company as a lessee

A. Lease Liability

At the commencement date, the company measures the lease liability at the present value of the lease payments that are not paid at that date. The lease payments shall be discounted using incremental borrowing rate.

B. Right of use assets

Initially recognised at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives.

Subsequent measurement

A. Lease Liability

Company measures the lease liability by (a) increasing the carrying amount to reflect interest on the lease liability; (b) reducing the carrying amount to reflect the lease payments made; and (c) remeasuring the carrying amounts to reflect any reassessment or lease modifications

B. Right of use assets

Subsequently measured at cost less accumulated depreciation and impairment losses. Right of use assets are amortised from the commencement date on straight-line basis over the shorter of the lease term and useful life of the underlying asset

Impairment

Right of use assets are evaluated for recoverability wherever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value less cost to sell and the value in use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the Cash Generating Unit (CGU) to which the asset belongs.

Short term lease

Short term lease is that, at the commencement date, has a lease term of 12 months, or less. A lease that contains a purchase option is not a short term lease. If the company elected to apply short term lease, the lessee shall recognise the lease payments associated with those leases as an expense on either a straight line basis over the lease term or another systematic basis. The lessee shall apply another systematic basis if that basis is more representative of the pattern of the lessee's benefit.

As a lessor

Leases for which the company is a lessor is classified as a finance or operating lease. Whenever the terms of the lease transfers substantially all the risks and rewards of ownership to the lessee, the contract is classified as finance lease. All other leases are classified as operating leases.

Lease income is recognised in the statement of profit and loss on straight line basis over the lease term

VI. Impairment of assets:

Goodwill and intangible assets that have an indefinite useful life are not subject to amortization and tested for impairment annually, or more frequently if events or changes in circumstances indicate that they might be impaired. Other assets are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognized for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is higher of value in use of other and fair value less costs to sell. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash flows from other assets or group of assets (Cash generating units).

VII. CASH AND CASH EQUIVALENTS

Cash and cash equivalent in the balance sheet comprise cash at bank and on hand and short term deposits with original maturity of three months or less, which are subject to an insignificant risk of changes in value.

For the purpose of presentation in the Statement of Cash flows, Cash and cash equivalents comprises cash at bank and on hand, demand deposits and short-term (with an original maturity of three months or less from the date of acquisition), highly liquid investments that are readily convertible into known amounts of cash and which are subject to an insignificant risk of changes in value.

VIII. Trade receivables

Trade receivable are recognised initially at fair value and subsequently measured at amortized cost using effective interest method, less provision for impairment, if any. Trade receivable do not carry interest and are stated at their normal value as reduced by appropriate allowances for estimated irrecoverable amounts. Individual trade receivable are written off when management deems them not to be collectible. Impairment is made on the expected credit losses, which are present value of the cash shortfall over the expected life of the financial assets

IX. Investments and other financial assets

A. Classification:

The company classifies its financial assets in the following measurement categories:

- a. Those to be measured subsequently at fair value (either through other comprehensive income, or through profit or loss), and

b. Those measured at amortized cost

The classification depends on the entity's business model for managing the financial assets and the contractual terms of the cash flows. For assets measured at fair values, gains and losses will either be recorded in profit or loss or other comprehensive income. For investment in debt instruments, this will depend on the business model in which the investment is held. For investments in equity instruments, this will depend on whether the Company has made an irrevocable election at the time of initial recognition to account for the equity investment at fair value through other comprehensive income. The Company reclassifies debt investments when and only when its business model for managing those assets changes.

B. Measurement:

At initial recognition, the Company measures a financial assets at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transactions costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at fair value through profit or loss are expensed in profit or loss.

1. Debt Instruments:

Subsequent measurement of debt instruments depends on the Company's business model for managing the asset and the cash flow characteristics of the asset. There are three measurement categories into which the Company classifies its debt instruments.

(i) Amortized Cost:

Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortised cost. A gain or loss on a debt instrument that is subsequently

measured at amortized cost and is not a part of hedging relationship is recognized in profit or loss when the asset is derecognized or impaired. Interest income from these financial assets is included in finance income using the effective interest rate method.

(ii) Fair value through other comprehensive income (FVOCI):

Assets that are held for collection of contractual cash flows and for selling the financial assets, where the assets cash flows represent solely payment of principal and interest, are measured at fair value through other comprehensive income (FVOCI). Movements in the carrying amounts are taken through OCI, except for the recognition of impairment gains or losses, interest revenue and foreign exchange gains and losses which are recognized in profit or loss. When the financial asset is derecognized, the cumulative gain or loss previously recognized in OCI is reclassified from equity to profit or loss and recognized in other income/(expense). Interest income from these financial assets is included in other income using the effective interest rate method.

(iii) Fair value through profit or loss:

Assets that do not meet the criteria for amortized cost or FVOCI are measured at fair value through profit or loss. A gain or loss on a debt investment that is subsequently measured at fair value through profit or loss and is not part of a hedging relationship is recognized in profit or loss and presented net in the Statement of profit or loss within other income/(expense) in the period in which it arises. Interest income from these financial assets is included in other income.

2. Equity Instruments:

The Company measures all equity instruments at fair value, except for investments forming part of interest in subsidiaries and joint ventures, which are measured at cost. Where the Company's management has elected to present fair value gains and losses on equity instruments in other comprehensive income, there is no subsequent reclassification of fair value gains and losses to profit or loss. Dividends from such investments are recognized in profit or loss as other income when the Company's right to receive payments is established. Changes in fair value of financial assets at fair value through profit or loss are recognized in other income/(Expense) in the statement of profit or loss. Impairment losses (and reversal of impairment losses) on equity investment measured at FVOCI are not reported separately from other changes in fair value.

C. Impairment of Financial Assets

The Company assesses on a forward-looking basis the expected credit losses associated with its assets carried at amortized cost and FVOCI debt instruments. The impairment methodology applied depends on whether there has been a significant increase in credit risk. Note 37 details how the Company determines whether there has been a significant increase in credit risk.

For trade receivables only, the Company applies simplified approach permitted by Ind AS 109 Financial Instruments, which require expected lifetime losses to be recognized from initial recognition of the receivables.

D. Derecognition of Financial Assets

The financial asset is derecognized only when

- a. The Company has transferred the rights to receive cash flows from the financial asset or
- b. The Company retains the contractual rights to receive the cash flows of the financial asset but assumes a contractual obligation to pay the cash flows to one or more recipients.

Where the Company has transferred an asset, it evaluates whether it has transferred substantially all risks and rewards of ownership of the financial asset. In such cases, the financial asset is derecognized. Where the Company has not transferred substantially all risks and rewards of ownership of the financial asset, the financial asset is derecognized. Where the Company has neither transferred a financial asset nor retains substantially all risks and rewards of ownership of the financial asset, the financial asset is derecognized if the company has not retained control of the financial asset. Where the Company retains control of the financial asset, the asset is continued to be recognized to the extent of continuing involvement in the financial asset.

X. Accounting for Joint Venture

S&S Power Switchgear Equipment Limited was accounted as subsidiary under previous GAAP whereas it needs to be accounted using equity method under Ind AS. Therefore, as required by Ind AS 101, the Group has:-

- On the transition date, recognized its investments in SSPSE Limited by measuring it at the aggregate of carrying amounts of the assets and liabilities that the Group has consolidated as subsidiary under previous GAAP as of the transition date;
- This investment amount has been deemed to be cost of investment at initial recognition;
- The Group has test the investment in SSPSE Limited for impairment as of the transition date;
- After initial recognition at the transition date, the Group has accounted for SSPSE Limited using the equity method in accordance with Ind AS 28

XI. PROPERTY, PLANT AND EQUIPMENT

Freehold land and building are carried at fair value. All other items of property, plant and equipment except freehold land and building are stated at cost, which includes capitalized borrowing costs, less accumulated depreciation, and impairment loss, if any.

Historical cost includes expenditures that is directly attributable to the acquisition of the items. Subsequent costs are included in the assets carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefit associated with the item will flow to the Company and the cost of the items can be measured reliably.

Spare Parts: Spare parts are treated as capital assets in accordance with Ind AS when they meet the definition of property, plant and equipment. Otherwise, such items are classified as inventory. If significant parts of an item of property, plant and equipment have different useful lives, then they are accounted for, as separate items (major components) of property, plant and equipment.

The carrying amount of any component accounted for as a separate asset is derecognized when replaced. All other repairs and maintenance are charged to profit or loss during the reporting period in which they are incurred.

Depreciation: Depreciation methods, estimated useful lives and residual value is calculated using the straight line and written down value methods to allocate their cost, net of their residual values, over their estimated useful lives. The useful lives have been determined based on Schedule II to the Companies Act, 2013. The residual values are not more than 5% of the original cost of the asset.

The assets residual values and useful lives, are reviewed and adjusted if appropriate, at the end of each reporting period. An assets carrying amount is written down immediately to its recoverable amount if the asset carrying amount is greater than its estimated recoverable amount. Gains and losses on disposal are determined by comparing proceeds with carrying amount. These are included in profit or loss within other income/(expenses).

XII. Investment Properties:

Property that is held for long term rental yields or for capital appreciation or both, and that is not occupied by the Company, is classified as investment property. Investment property is measured initially at its cost, including related transaction costs. Subsequent expenditure is capitalized to the assets' carrying amount only when it is probable that the future economic benefit associated with the expenditure will flow to the company and the cost of the item can be measured reliably. All other repairs and maintenance costs are expensed when incurred.

When the part of investment property is replaced, the carrying amount of the replaced part is derecognized. Investment properties (other than land) are depreciated using the written down value method over their estimated useful lives. Investment properties have a useful life of 30 years. The useful lives have been determined based on Schedule II to the Companies Act, 2013

XIII. Business Combinations and Intangible assets:

Business Combinations:

Business combinations are accounted for using Ind AS 103, Business Combinations. Ind AS 103 require the identifiable intangible assets and contingent consideration to be fair valued in order to ascertain the net fair value of identifiable assets, liabilities and contingent liabilities of the acquiree. Significant estimates are required to be made in determining the value of contingent considerations and intangible assets.

Intangible Assets:

The Intangible assets includes technical know-how and computer software which are recorded at the cost of acquisition and are amortized over a period of five years or their legal/useful life whichever is less.

XIV. Goodwill:

Goodwill represents the cost of business acquisition in excess of the Group's interest in the net fair value of identifiable assets, liabilities and contingent liabilities of the acquiree when the net fair value of the identifiable assets, liabilities and contingent liabilities acquired exceeds the cost of business acquisition. A gain is recognized immediately in net profit in Statement of Profit or Loss. Goodwill is measured at cost less accumulated impairment losses.

XV. Research and Development expenses

Expenditure on research activities is charged to Statement of Profit and Loss in the period in which it is incurred.

An internally generated intangible asset arising from development is recognised if, and only if, all of the following have been demonstrated:

- Technical feasibility of completing the intangible asset to show its availability for use or sale;
- Intention to complete the intangible asset and its use or sell;
- Ability to use or sell;
- How it will generate future economic benefits;
- Availability of technical, financial and other resources to complete the development phase; and
- Ability to measure reliably the expenditure attributable to development phase.

The amount initially recognised is the sum of the expenditure incurred from the date when the intangible asset first meets the recognition criteria listed above. Where no intangible asset can be recognised, development expenditure is charged to Statement of Profit and Loss in the period in which the same are incurred.

Subsequent to its initial recognition, the development expenditure recognised as an assets are reported at cost less accumulated amortization and impairment loss, on the same basis as intangible assets that are acquired separately.

De-recognition of intangible assets

Intangible asset is de-recognised on disposal or when no future economic benefits are expected from its use or disposal. Gains or losses arising from de-recognition of an intangible asset, measured as the difference between the net disposal proceeds and the carrying amount of the asset, are recognised in the Statement of Profit and Loss when the asset is de-recognized.

XVI. Trade and other payables:

These amounts represent liabilities for goods and services provided to the company prior to the end of financial year which are unpaid. Trade and other payables are presented as current liabilities unless payments is not due within 12 months after the reporting period. They are recognized initially at fair value and subsequently measured at amortized cost using effective interest rate method.

XVII. Borrowings:

Borrowings are initially recognized at fair value, net of transaction cost incurred. Borrowings are subsequently measured at amortized cost. Any difference between the proceeds (net of transaction costs) and the redemption amount is recognized in profit or loss over the period of borrowings using the effective interest rate method. Fees paid on the establishment of loan facilities are recognized as transaction costs of the loan to the extent that it is probable that some or all of the facility will be drawn down. In this case, the fee is deferred until the draw down occurs. To the extent there is no evidence that it is probable that some or all of the facility will be drawn down, the fee is capitalized as a prepayment for liquidity services and amortized over the period of the facility to which it relates. Borrowings are removed from the balance sheet when the obligation specified in the contract is discharged, cancelled or expired.

The difference between carrying amount of a financial liability that has been extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognized

in profit or loss as other gains/(losses). Borrowings are classified as current liability unless the company has an unconditional right to defer the settlement of liability for at least 12 months after the reporting period.

XVIII. Borrowing costs:

General and specific borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset are capitalized during the period that is required to complete and prepare the asset for its intended use or sale. Qualifying assets are assets that necessarily take a substantial period to get ready for intended use or sale. Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalization. Other borrowing costs are expensed in the period in which they are incurred.

XIX. Provisions:

Provisions for legal claims, service warranties, volume discounts and returns are recognized when the Company has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation and the amount can be reliably estimated. Provisions are not recognized for future operating losses. Where there are number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. A provision is recognized even if the likelihood of an outflow with respect to any one item included in the same class of obligations may be small.

The amount recognized as provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation. When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, a receivable is recognized as an asset if it is virtually certain that reimbursement will be received, and the amount of the receivable can be measured reliably. The expense relating to a provision is presented in the Statement of Profit or Loss net of any reimbursement.

XX. Employee Benefits:

(i) Short Term obligations

Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognized in respect of employees' services up to the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled. The liabilities are presented as other financial liability in the balance sheet

(ii) Other long term employee benefit obligations

The liabilities for earned leave that are not expected to be settled wholly within 12 months after the end of the period in which the employees render the related services are measured as the present value of expected future payments to be made in respect of services provided by employees up to the reporting period using the projected unit credit method. The benefits are discounted using the market yields at the end of the reporting period that have terms approximating to the terms of the related obligation. Remeasurements as a result of experience adjustments and changes in actuarial assumptions are recognized in profit or loss. The obligations are presented as current liabilities in the balance sheet if the company does not have an unconditional right to defer settlement for at least 12 months after the reporting period, regardless of when the actual settlement is expected to occur.

(iii) Post-employment obligations

The company operates the following post-employment schemes:

- a. defined benefit plan such as gratuity fund
- b. defined contribution plan such as provident fund.

a. Gratuity obligations

Defined Benefit Plans:

The liability or asset recognized in the balance sheet in respect of defined gratuity plans is the present value of the defined benefit obligations at the end of the reporting period less the fair value of plan assets. The defined benefit obligation is calculated annually by actuaries using the projected unit credit method. The present value of

defined benefit obligation denominated in ₹ is determined by discounting the estimated future cash outflows by reference to market yield at the end of the reporting period on government bonds that have terms approximating to the terms of the related obligation.

The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets. This cost is included in employee benefit expense in the statement of profit or loss. Remeasurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognized in the period in which they occur, directly in other comprehensive income. The are included in retained earnings in the statement of changes in equity and in the balance sheet. The changes in present value of the defined benefit obligations resulting from plan amendments or curtailments are recognized immediately in profit or loss as past service cost.

Defined Benefit Plans:

The liability or asset recognized in the balance sheet in respect of defined gratuity plans is the present value of the defined benefit obligations at the end of the reporting period less the fair value of plan assets. The defined benefit obligation is calculated annually by actuaries using the projected unit credit method. The present value of defined benefit obligation denominated in ₹ is determined by discounting the estimated future cash outflows by reference to market yield at the end of the reporting period on government bonds that have terms approximating to the terms of the related obligation.

Defined Contribution Plans:

The Company pays provident fund to Employee Provident Fund Account as per the Employees Provident Fund Act, 1952. The company has no further payment obligations once the contributions have been paid. The contributions are accounted for as defined contributions have been paid. The contributions are accounted for as defined contribution plans and the contributions are recognized as employee benefits expense when they are due. Prepaid contributions are recognized as an asset to the extent that a cash refund or reduction in the future payment is available.

(iv) Bonus Plans

The company recognizes a liability and expense for bonuses. The company recognizes a provision where contractually obligated or where there is a past service that has created a constructive obligation.

A. Dividends:

Provision is made for the dividend declared, being appropriately authorized and no longer at the discretion of the entity, on or before the end of the reporting period but not distributed at the end of the reporting period.

B. Earnings Per Share:

(i) Basic earnings per share

Basic earnings per share is calculated by dividing:

1. Profit attributable to owners of the company
2. Weighted average number of Equity Shares outstanding during the financial year, adjusted for bonus element in equity shares issued during the year and excluding treasury shares (Note 33)

(ii) Diluted Earnings Per Share:

Diluted earnings per share adjusts the figures used in the determination of basic earnings per share to take into account:

1. the after-income tax effect of interest and other financing costs associated with dilutive potential equity shares, and
2. the weighted average number of additional equity shares that would have been outstanding assuming the conversion of all dilutive potential equity shares.

Note 35 Employee benefits
[A] Defined contribution plans:

The Company makes contributions towards provident fund to defined contribution retirement benefit plan for qualifying employees. The provident fund contributions are made to Government administered Employees Provident Fund. Both the employees and the Company make monthly contributions to the Provident Fund Plan equal to a specified percentage of the covered employee's salary.

The Company recognised ₹ 25.34 lakhs in current financial year ₹ 43.35 lakhs in immediate previous financial year) for provident fund contributions in the Statement of Profit and Loss.

[B] Defined benefit plan:

The Company makes annual contributions to Employees' Gratuity Fund which is administered by the Life Insurance Corporation of India. Having regard to the assets of the gratuity fund and the return on the investment the company does not expect any deficiency as at the year end. The scheme provides for payment to vested employees as under:

- i) On normal retirement / early retirement / withdrawal / resignation: As per the provisions of Payment of Gratuity Act, 1972 with vesting period of 5 years of service.
- ii) On death in service: As per the provisions of Payment of Gratuity Act, 1972 without any vesting period.

Investment risk:

The present value of the defined benefit plan liability is calculated using a discount rate which is determined by reference to market yields at the end of the reporting period on government bonds. If the return on plan asset is below this rate, it will create plan deficit.

Interest risk:

A decrease in the bond interest rate will increase the plan liability; however, this will be partially offset by an increase in the plan assets.

Longevity risk:

The present value of the defined benefit plan liability is calculated by reference to the best estimate of the mortality of plan participants both during and after their employment. An increase in the life expectancy of the plan participants will increase the plan's liability.

Salary risk:

The present value of the defined benefit plan liability is calculated by reference to the future salaries of plan participants. As such, an increase in the salary of the plan participants will increase the plan's liability.

The following table sets out the status of the gratuity plan and the amounts recognized in the Consolidated financial statements:

j) Sensitivity analysis

Significant actuarial assumptions for the determination of the defined benefit obligation are discount rate and expected salary increase. The sensitivity analysis below have been determined based on reasonably possible changes of the respective assumptions occurring at the end of the reporting period, while holding all other assumptions constant.

Particulars	DR: Discount Rate		ER: Salary Escalation Rate	
	PVO DR + 0.5%	PVO DR - 0.5%	PVO ER + 0.5%	PVO ER - 0.5%
PVO	16.64	17.36	17.10	16.89

Although the analysis does not take account of the full distribution of cash flows expected under the plan, it does provide an approximation of the sensitivity of the assumptions shown.

Based on the actuarial valuation obtained in this respect, the following table sets out the status of the gratuity plan and the amounts recognised in the Company's financial statements as at balance sheet date:

Total employee benefit liabilities	Note	31st Mar, 2023	31st Mar, 2022
Provision for employee benefits (incl. leave encashment)	18&25	(54.02)	(136.38)

Note 36 Financial instruments

[A] Capital Management:

The Company's policy is to maintain a strong capital base so as to ensure that the Company is able to continue as going concern to sustain future development of the business. The Company monitors the return on capital as well as the level of dividends to ordinary shareholders.

Its guiding principles

- i) Maintenance of financial strength to ensure the highest ratings;
- ii) Ensure financial flexibility and diversify sources at financing;
- iii) Manage Company exposure in forex to mitigate risks to earnings;
- iv) Leverage optimally in order to maximum shareholders returns while maintaining strength and flexibility of the balance sheet.

The policy is also adjusted based on underlying macro-economic factors affecting business environment, financial and market conditions.

The gearing ratio at the end of the reporting period are as under:

(₹ in Lakhs)

Particulars	As at 31st Mar, 2023	As at 31st Mar, 2022
Total Borrowings*	4,967.38	4,849.84
Less: Cash and cash equivalent	(45.13)	(241.66)
Adjusted net debt	4,922.25	4,608.18
Total equity	(769.63)	(1,122.73)
Adjusted net debt to adjusted equity ratio	(6.40)	(4.10)

*Total Borrowings includes reclassification of dues to related parties from other financial liabilities-current to Non-Current Borrowings during the year as these were restructured as long term loans repayable on maturity. Hence only interest accrued but not due is classified as current borrowings for year ended 31st Mar 2023. Previous year "Due to related parties" is reclassified to current borrowings from other financial liabilities-current.

[B] Valuation:

All financial instruments are initially recognised and subsequently re-measured at fair value as described below:

- i) The fair value of investment in quoted Equity shares, Bonds, Government Securities and Mutual funds is measured at quoted price or NAV.
- ii) The fair value of Forward Foreign Exchange contracts is determined using forward exchange rates at the balance sheet date.
- iii) All foreign currency denominated assets and liabilities are translated using exchange rate at reporting date.
- iv) The fair value of the remaining financial instruments is determined using discounted cash flow analysis.

[C] Fair value measurement hierarchy:

(₹ in Lakhs)

Particulars	Carrying Amount	
	As at 31st Mar, 2023	As at 31st Mar, 2022
Financial assets		
At FVTPL	Nil	Nil
At FVTOCI	Nil	Nil
At Amortised cost		
Trade receivables	2,797.84	2,592.42
Cash and cash equivalents	45.13	241.66
Bank balances other than above	303.87	330.18
Financial liabilities		
At Amortised cost		
Borrowings	4,967.38	4,849.84
Trade payables	3,925.07	4,222.41

The financial instruments are categorised into three levels based on the inputs used to arrive at fair value measurements as described below:

- i. **Level 1:** Level 1 hierarchy includes financial instruments measured using quoted prices.
- ii. **Level 2:** The fair value of financial instruments that are not traded in an active market is determined using valuation techniques which maximise the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2. In the case of the mutual funds are valued using the closing NAV. In the case of Derivative contracts, the Company has valued the same using the forward exchange rate as at the reporting date.
- iii. **Level 3:** If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3. This is the case for unlisted equity securities included in level 3. The Company owns unlisted equity shares in companies, which are non-profit companies providing facilities for treating effluents generated during its manufacturing process. In the absence of any observable market data in relation to the said companies, the same have been categorised as Level 3. Considering the objective of investment and materiality, its fair value have been considered same as cost as at the reporting date.

Note 37 Financial risk management
Risk management framework

The Company's Board of Directors has overall responsibility for the establishment and oversight of the Company's risk management framework.

The Company's risk management policies are established to identify and analyse the risks faced by the Company, to set appropriate risk limits and controls and to monitor risks. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Company's activities.

The audit committee oversees how the management monitors compliance with the Company's risk management policies and procedures, and reviews the adequacy of the risk management framework in relation to the risks faced by the Company. The audit committee is assisted by internal audit. Internal audit undertakes

both regular and ad hoc reviews of risk management controls and procedures, the results of which are reported to the audit committee.

The Company has exposure to the following risks arising from financial instruments:

- A) Credit risk;
- B) Liquidity risk;
- C) Market risk; and
- D) Interest rate risk

[A] Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Company's receivables from customers, loans and investment in debt securities. Credit risk is managed through credit approvals, establishing credit limits and continuously monitoring the creditworthiness of customers to which the Company grants credit terms in the normal course of business. The Company establishes an allowance for doubtful trade receivables and impairment that represents its estimate of incurred losses in respect of trade and other receivables and investments.

The maximum exposure to credit risk in case of all the financial instruments covered below is restricted to their respective carrying amount.

Trade and other receivables

The Company's exposure to credit risk is influenced mainly by the individual characteristics of each customer. The demographics of the customer and including the default risk of the industry, also has an influence on credit risk assessment. Credit risk is managed through credit approvals, establishing credit limits and continuously monitoring the creditworthiness of customers to which the Company grants credit terms in the normal course of business.

The Company considers the probability of default upon initial recognition of asset and whether there has been a significant increase in credit risk on an ongoing basis through each reporting period. To assess whether there is a significant increase in credit risk the Company compares the risk of default occurring on asset as at the reporting date with the risk of default as at the date of initial recognition. It considers reasonable and supportive forwarding-looking information such as:

- (i) Actual or expected significant adverse changes in business;
- (ii) Actual or expected significant changes in the operating results of the counterparty;
- (iii) Financial or economic conditions that are expected to cause a significant change to the counterparty's ability to meet its obligations;
- (iv) Significant increase in credit risk on other financial instruments of the same counterparty;
- (v) Significant changes in the value of the collateral supporting the obligation or in the quality of the third-party guarantees or credit enhancements.

Financial assets are written off when there is no reasonable expectations of recovery, such as a debtor failing to engage in a repayment plan with the Company. Where loans or receivables have been written off, the Company continues to engage in enforcement activity to attempt to recover the receivable due. Where recoveries are made, these are recognized as income in the statement of profit and loss.

The Company measures the expected credit loss of trade receivables based on historical trend, industry practices and the business environment in which the entity operates. Loss rates are based on actual credit loss experience and past trends.

Loans

In the case of loans to concerned employees, the same is managed by establishing limits. (Which in turn based on the employees salaries and number of years of service put in by the concern employee)

Cash and cash equivalents

The Company held cash and cash equivalents of ₹ 45.13 lakhs at 31st Mar, 2023 (₹ 241.66 lakhs at 31st Mar, 2022). The cash and cash equivalents are held with bank and financial institution counterparties with good credit ratings.

[B] Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The responsibility for liquidity risk management rests with the board of directors, which has established an appropriate liquidity risk management framework for the management of the Company's short-term, medium-term and long-term funding and liquidity management requirements. The Company manages liquidity risk by maintaining adequate reserves, banking facilities and reserve borrowing facilities, by continuously monitoring forecast and actual cash flows, and by matching the maturity profiles of financial assets and liabilities.

*Borrowings were reclassified as Non-Current during the year as these were restructured as long term loans repayable on maturity. Hence only interest accrued but not due is classified as current borrowings for year ended 31st Mar 2023. Previous year classification remains at current borrowings as it was repayable on demand as at 31st Mar 2022.

The following table details the Company's expected maturity for its non-derivative financial assets. The table has been drawn up based on the undiscounted contractual maturities of the financial assets including interest that will be earned on those assets. The inclusion of information on non-derivative financial assets is necessary in order to understand the Company's liquidity risk management as the liquidity is managed on a net asset and liability basis.

[C] Market risk

Market risk is the risk that changes in market prices – such as foreign exchange rates, interest rates and equity prices – will affect the Company's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return.

[D] Currency risk

The Group undertakes transactions denominated in foreign currencies; consequently, exposures to exchange rate fluctuations arise. Exchange rate exposures are managed utilising forward foreign exchange contracts.

The carrying amounts of the Company's foreign currency dominated monetary assets and monetary liabilities at the end of the reporting period are as follows:

Foreign currency sensitivity analysis

The Company is mainly exposed to the currency: USD, EUR, GBP.

The following table details the Company's sensitivity to a 5% increase and decrease in the Rupee against the relevant foreign currencies. 5% is the sensitivity rate used when reporting foreign currency risk internally to key management personnel and represents management's assessment of the reasonably possible change in foreign exchange rates. This is mainly attributable to the net exposure outstanding on receivables or payables in the Company at the end of the reporting period. The sensitivity analysis includes only outstanding foreign currency denominated monetary items and adjusts their translation at the period end for a 5% change in foreign currency rate. A positive number below indicates an increase in the profit or equity where the Rupee strengthens 5% against the relevant currency. For a 5% weakening of the Rupee against the relevant currency, there would be a comparable impact on the profit or equity, and the balances below would be negative.

[E] Interest rate risk

Interest rate risk can be either fair value interest rate risk or cash flow interest rate risk. Fair value interest rate risk is the risk of changes in fair values of fixed interest-bearing investments because of fluctuations in the interest rates, in cases where the borrowings are measured at fair value through profit or loss. Cash flow interest rate risk is the risk that the future cash flows of floating interest-bearing investments will fluctuate because of fluctuations in the interest rates. The Company's investments are primarily in fixed rate interest bearing investments. Hence, the Company is not significantly exposed to interest rate risk. Also, there is no material interest risk relating to the Company's financial liabilities.

[F] Fair Values:

The following table presents the carrying amounts and fair value of each category of financial assets and liabilities.

	4,797.22	-	4,797.22	9,086.31	-	9,086.31

* Borrowings were reclassified as Non-Current during the year as these were restructured as long term loans repayable on maturity. Hence only interest accrued but not due is classified as current borrowings for year ended 31st Mar 2023. Previous year classification remains at current borrowings as it was repayable on demand as at 31st Mar 2022.

The management assessed that cash and cash equivalents, other bank balances, trade receivables, loans and advances, other financial assets, short term borrowings, trade payables and other current financial liabilities approximate their carrying amounts largely due to the short-term maturities of these instruments

The fair value of the financial assets and liabilities is included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale. The following methods and assumptions were used to estimate the fair values:

Derivatives are fair valued using market observable rates.

Note:

The Company is a party to various legal proceedings in the normal course of business and does not expect the outcome of these proceedings to have any material adverse effect on its financial conditions, results of operations or cash flows. Further, claims by parties in respect of which the Management have been legally advised that the same are frivolous and not tenable, have not been considered as contingent liabilities as the possibility of an outflow of resources embodying economic benefit is highly remote.

There are numerous interpretative issues relating to the Supreme Court (SC) Judgement on PF dated 28th February, 2019. The company will update its provision, on receiving further clarity on the subject.

In respect of the items above, further cash outflows in respect of contingent liabilities are determinable only on receipt of judgements/decisions pending at various forums/authority. The company does not expect the outcome of matters stated above to have a material adverse effect on the company's financial conditions, result of operations or cash flows.
